COUNTY CHEESEMAKERS TOPS AT SHOW

Two area cheesemakers have brought honour to the county for their outstanding entries in the 40th annual British Empire Dairy Show of the Central Ontario Cheese Makers' Association held in Belleville last week.

Cheesemaker of the Foxboro Cheese Factory, Ted Foley took, for the fourth time, the grand championship award of the Central Ontario Cheese Makers' Association held in Belleville last week.

Mr. Foley, who has been cheesemaker at the Foxboro plant for the last 10 years, took the prize twice in the 1960's and again in 1970. His cheese, processed last August, scored 98.25 in the competition. It was cut last Thursday at noon for sale to the public at the cheesemakers display on Front Street in Belleville.

Ivan Sine, cheesemaker of the Eldorado Cheese & Butter Co-op took three high-ranking prizes, among many others. His cheese display placed top among the four entrants. He also won the J. L. Irwin Memorial Trophy for the second highest average score in the show; the G. G. Publow Memorial Trophy, the Frank Hearn Memorial Trophy; placed second for the H. B. Fuller Company Sep-Ko Special Award, and placed third for the Pfizer Company Limited Award. Cash Awards received were: 1st place in both Sections 1 and 2 for the R. R. Cooke Awards and third place in both sections 3 and 6 for the Horan-Lally Company Ltd. Awards. His mature years (over one year old) was judged the best old cheese.

Besides the large trophy for

top prize, many other awards were presented to Mr. Foley at the closing banquet last Thursday evening. They were: 1st Prize for the Merry Packing Ltd. cash award; 2nd Prize, Dye & Chemical Co. of Canada Ltd. Award; The John H. Echlin Memorial Cup; The Clarke T. Rollins, M.P.P. Hastings, Award; The F. A. Morgan Memorial Trophy; 1st Prize, the Pfizer Company Ltd. Award; Sections 4 and 7, for the R. R. Cooke Cash Awards; Chris Hansen's of Canada Ltd. Award for Highest Scoring and winner in Sections 5 and 6; International Co-operation of Canada Ltd. Cash Award; Lee Grills Special Award and 1st Prize for the Sep-Ko Special Award (H. B. Fuller Co.).

Last year's champion, Lionel Lamoureux, of Granby, Quebec, was runner-up to Mr.

SANTA CLAUS PARADE THIS SATURDAY

Readers must be getting sick of hearing about the Madoc Chamber of Commerce Santa Claus Parade without seeing any real evidence of it. However, on Sunday, December 2nd, men and women of the Chamber of Commerce started to decorate the streets of Madoc. Pine trees have

been wired to the telephone posts along the streets. Ray Burris, with a little bit of help from his friends, chopped trees off his Christmas tree lot and transported them to Madoc.

Bob Hudson and Bob Hawley spent most of the afternoon decorating Santa's Workshop

(i.e. the tourist office). Santa should be well pleased with the effort made on his behalf. Jim Watson, Verne Pegge, Gavin Adams, Toni Adams, Leland Richardson, Bill Taylor, and others worked steadily throughout the afternoon putting the finishing touches on some of the floats for the

parade. This year's parade will be Madoc's biggest. There are over forty entries including bands, 2 corps of drum majorettes, and 35 or more floats.

It is with satisfaction that this writer is hearing about the commitment that the business-

men and organizations in Madoc have towards putting floats into the parade. A parade is not really a parade without floats, especially locally created ones. Without the floats, much of the parade would be just imported talent — and we of Madoc can do better than that. This writer is proud of the way that Madocians are pitching in and producing floats for the parade.

Besides Santa Claus, Madoc will be having another special guest for the parade, Miss Donna Moon, formerly of Madoc, will be returning home after beginning a promising career as a country and western singer. Donna has come a long way from her modest beginning as a single in the Trent Valley Jamboree.

Jack McCann of the Trent Valley Jamboree was emphatic 5 years ago when he said that Donna would blossom into a great singer. Her new album "Bittersweet" shows clearly that she has bloomed. This album has been well produced by the Marathone Record Company - a company whose albums in the past tended to be audibly muzzy with a poor balance of sound.

But this album is refreshing. Donna's sound is throaty with great emotional impact. Her phrasing is impeccable. It is hoped that her songs and albums in the future meet with the standard she has set on "Bittersweet". Donna's next album will feature a picture of her in the Madoc Santa Claus parade. Be there and see her.

The floats should assemble at Pigden's Garage by 1:00 p.m. so that the participants can get their refreshment tickets and their number in the parade. This is very important, as the parade must run smoothly. It will be well over 1/4 of a mile in length.

If you wish to volunteer to help hand out refreshment and number tickets, marshal the parade, serve refreshments, and man the walkie-talkies, please phone Jim Watson at 473-4413.

Everything is GO — see you at 2:00 p.m. on Saturday. Thanks Madoc for your support.

Towne Meeting On Alcoholism

A member of Alcoholics Anonymous addressed the Towne Meeting held at Centre Hastings Secondary School on November 30th. Alcoholics Anonymous is a worldwide fellowship of recovered alcoholics who help each other to maintain sobriety and who offer to share their recovery experiences freely with other men and women who may have a drinking problem.

The speaker began by briefly describing the "Twelve Steps" suggested for recovery, and the "Twelve Traditions" suggested for relationships within the Fellowship and with the community. They maintain that in order to be cured, the alcoholic must admit that he is unable to cope with his problem and must seek Divine assistance from "God as he understands Him."

The students were intrigued as the speaker described his own happy and then unhappy experiences with alcohol as he gradually became addicted. They still listened as he went on to contrast the benefits of his present sober existence with the superficial joy and real misery of an alcoholic's life. This was not just a theory; it was the voice of experience; he had been there.

Our Trip To St. Jerome, P.Q.

It was three weeks before the trip when Mr. Murphy called us. He told us we were bad in French. We laughed! Then he told us about the trip how much it would cost and that each one of us would be staying with a family in St. Jerome, Quebec.

First we thought we were going by bus but the idea was changed. We would be going by train. He also told us to keep it a secret (for awhile).

On Sunday, November 18th the day before we left, the parents, Mr. Murphy, Mrs. Hailstone and the students had a meeting at 2:30 p.m.

Monday we met at the school, left the school at ten o'clock and drove to Belleville, where the students bought their own tickets. Then we saw a photographer talking to Mrs. Hailstone and Mr. Murphy. When the train came the photographer took our pictures.

We got on the train and left at 11:30. On the train, the steward was friendly and entertained us with funny jokes. We arrived in Montreal and were driven to St. Jerome school where we met our hosts.

On Tuesday, we got to Laurencia School that is three stories high and goes from Kindergarten to grade six. We had a French math class with Mme. Hainaut.

In the afternoon we took a tour, through the Laurentian (Continued on Page 10)

Council members line up with Mr. Clarke T. Rollins, M.P.P. Hastings, after the new Madoc Township garage was officially opened on Friday evening. Above, left to right, are: Don Wannamaker, John Irwin, Cecil Woods, Mrs. Eva Brownson, Mr. Rollins, Christie Bailey, Harold Harris and George Williams.

Clarke T. Rollins Opens New Township Garage

"Eighty-five percent is now paid for and the balance will be paid before the end of the year," was the good news from Madoc Township Reeve Cecil Woods, in welcoming the crowd at Friday night's official opening of the new municipal garage on Highway 62 north of here.

The Provincial government paid 75% of the cost of constructing the \$80,000 building, and the Reeve made special mention of the support of Hastings M.P.P. Clarke T. Rollins, in the project. Mr. Woods commented on the excellent co-operation of the Council received in dealing with both the contractors, Weiger deLong construction and the engineers, R. M. Kustich Associates Limited. He also paid tribute to the Road Superintendent, Mr.

George Williams, for his patience and co-operation during the construction of the building.

Jack Ellis, M.P. Hastings, was one of the first dignitaries called upon by the Reeve. In his comments, Mr. Ellis said he was delighted to be present and congratulated the municipality on the completion of so fine a building. "It's a credit to the Township", he said.

Mr. Weiger deLong, as building contractor, expressed great pride in the building and said he appreciated the co-operation he received both from the Council, and from the Road Superintendent, Mr. Williams. In thanking the Council for the privilege of having the contract, Mr. deLong said he hoped that the Township gets much good use

out of the building. In concluding, he extended good wishes from the Reeve of Stirling.

On behalf of the engineers, Mr. Gib Bailey of Madoc wished the Township the best of luck with their new facilities.

Mr. Clarke Rollins expressed pleasure in the opportunity of being present to share with the Township of Madoc in the opening of their new garage. He was pleased to see the completion of so fine a building, with the contractors and most of the building materials being from within the County. He commented,

"It means so much to have something here that will last, hopefully, for a long time." He referred to being present at the opening of the cheese factory not far away a few years ago, saying he believes the Township of Madoc has a lot to be thankful for in having so many people so dedicated. He congratulated the Reeve and the architects and all those who had a part in the building, with "A job well done".

Mr. Frank Downey of Frank Downey Insurance Agency Limited, who has all of the Township's blanket insurance, had sent a large bouquet of flowers for the occasion. He was present to extend congratulations to the municipality, saying, "I'm sure it will serve a useful purpose for many years".

With a few appropriate words, Clarke Rollins then declared the garage officially open by unveiling a plaque on the east wall, bearing the names of the members of council, the engineers, the contractors and the date of the official opening by Mr. Rollins.

Reeve Cecil Woods then invited everyone to browse at their leisure through the new building; to partake of the lunch and to stay to enjoy dancing to Murphy's Orch-

S.O.S.!
Lee Johnson of Eldorado found himself "up a tree" during hunting season this fall when he and some fellow hunters came across a bear in Grimsthorpe Township. Actually, the 300-pound bear had been shot by Harry McCoy before this picture was taken and had been stood up against the tree for a little fun with the camera. Mr. McCoy told the Review he will soon have a nice new rug from the bear.

Students from Grade 11 Art Classes of C.H.S.S. are shown decorating a wall in the Beamish store for Christmas, with the theme, "The Old-Fashioned Christmas". The murals were made up by the students, under the supervision of Mrs. B. Hudson. Several other students are presently involved in designing posters for the Santa Claus parade and similar community projects directed at making Madoc a festive town this Christmas.

SENIOR CITIZENS REPORT

(by Mrs. Velma Johns)
The Madoc & District Senior Citizens Club No. 473 held their regular meeting and annual Election of Officers on Wednesday, November 28th at 2:00 p.m. in Trinity United Church Parlors. There was an attendance of 47 members.

The President, Mrs. Percy Broadworth was in the chair and opened the meeting by repeating the Lord's Prayer in unison. This was followed by the President welcoming all members and by the reading of a poem, entitled "Christmas Cards".

Business was dealt with including the reading of the minutes by the Secretary Mrs.

Velma Johns and correspondence and reports from the committees. The Club is sorry to learn that several members are ill and everyone wishes them a speedy recovery. Sympathy goes out to Mrs. Mary Ann Holmes, who was absent owing to a death in the family.

Mrs. Palmer reported that the "float" for the Santa Claus Parade for December 8th is ready and members participating are to be at Pigden's Garage before 2 p.m.

Election of Officers for 1974 was conducted by Chairman Miss Ada Adams, resulting as follows: President, Mrs. Percy Broadworth; Vice President, Mrs. Vera Holmes; 2nd Vice President, Mrs. Hilda DeClair; Secretary, Mrs. Velma Johns; Asst. Secretary, Mrs. Pearl Blakely; Treasurer, Mr. David Johns; Social Convener, Mrs. Mary Moorcroft; Refreshment Convener, Mrs. Marguerite Blakely; Pianist, Mrs. Emma Reid; Press Reporter, Mrs. Josephine McCoy; Cards, Mrs. Sadie Yearwood; Visiting Convener, Mr. George Moorcroft. A hearty vote of thanks was given to Miss Ada Adams as Installing Chairman and also to Mrs. Blanche McMurray, Chairman of Nominating Committee.

Mrs. Broadworth resumed the Chair and thanked the members by the reading of a poem, entitled, "Friends". Annual Reports were given, including the Treasurers Report and Reports from Chairmen of all committees for 1973. The Club gave a special

vote of thanks to Mrs. Mary Ann Holmes, for her outstanding contribution as Press Reporter.

On behalf of the Club, Mrs. Alma Kernohan presented Mrs. Mildred Donchue with a gift and best wishes on the occasion of her approaching marriage on December 8th.

The next meeting, on December 12th, will be the Christmas meeting. There will be an exchange of gifts (of not more than \$1.00 value) with each gentleman bringing a gift for a gentleman and ladies, a gift for a lady. A Christmas lunch will be served.

Trailer Broken Into

Ralph Frederick Clark, 43, of Port Colborne, returned to his 36 foot house trailer on Saturday, December 1st, to find that it had been broken into.

Mr. Clark was using the trailer for a cottage and had not been back since he left it near the end of October.

The door of the trailer had been pried open and about \$700 worth of articles, including a gas generator, a large amount of good bedding and a Coleman stove, were missing.

The trailer was located on the old Flinton Road, about seven miles north of Highway 20, near the Nottawasaga River. A Coast W. Newkirk is investigating.

Bell Wire Stolen

Bell Telephone Company has been plagued by the theft of copper wire from its line on the Downey Rapids Road about one mile east of the O.P.P. Detachment office here. The wire cutting is occurring about 1/4 mile south of No. 7 Highway on that road.

Three men have been charged with theft over \$500 in connection with the incidents on the nights of November 7th and 8th.

Charged are David John Bergeron, 19, and Brian David Todd, 20, both of 163 Yeomans St., Belleville and Gary Anthony Lawday, 19, of R.R. 1, Corbyville. They will appear in court in Madoc on December 13th.

About \$100 worth of copper wire has been recovered in the Plainfield district.

Wire on the line was again cut Saturday night about 9 p.m., but the culprits were frightened away by an Ontario Provincial Police officer, Constable Robert Whitehorse, who happened to be patrolling at the time. The intending thieves had cut two strips of wire between three poles but did not take any with them in their flight.

Police believe the latest incident is unrelated to the first two.

The Downey Rapids telephone line is a feeder line for

THE ENERGY CRISIS
MAY BE GOOD FOR US

by Bill Smiley

It seems that in the Seventies, the whole world is lurching, as most of us do in our private lives, from one crisis to another. Crippling strikes, crippling food prices, crippling political scandals, and now the energy crisis, so-called.

A crisis may be defined as a turning point. Perhaps it's time we reached some turning points and did some turning in new directions.

What so many people of the affluent post-war years don't realize is that crises are nothing new. Every generation faces them, meets them, and resolves them, somehow.

War, depression, another war, the bomb. All these have been universal crises in this century. Beside those big ones, a hike in the price of beef is less than monumental, and even the expected energy crisis is small potatoes. (I must be hungry.)

If the energy crisis becomes more than newspaper headlines, and shortages and rationing occur, it might be the best thing that has happened to the fat-cat Western world for generations.

We are in grave danger of turning into slob, physically, mentally, emotionally and morally. Maybe we need a good purge, in the form of a sharp cut-back in our soft way of living. Get rid of some of the fat, even if it requires a surgeon's knife.

Take a day in the life of an average family. Someone, very often the husband in these degenerate days, gets up first and turns the thermostat up to seventy. The heat in the basement starts gulping more energy.

Our friend shaves with his electric razor. He goes down and gets his orange juice out of another beast that has been burning electricity all night, producing nothing. Then he flips on two burners on the electric stove, one for coffee, one for bacon and eggs. When they're ready, he jams some bread into the electric toaster.

Then the mother stumbles down and turns the burners back on. Father drives the eight blocks to work, stinking up the environment and burning energy. The kids waffle off to a school which is probably burning far more tons of coal a day than it needs to. That school has thousands of lights which are on even on a bright day.

At home friend wife throws the laundry into an automatic washer which uses large quantities of hot water which has taken a

fair amount of electricity to produce. Then it goes into the automatic dryer, run by electricity. Then she tackles the ironing, and we all know what heats an iron in this day.

She decides to wash her hair. More hot water. Then she sits under the electric dryer with fresh coffee made on the stove burner. At this time of year, probably half the lights in the house are on, merrily chewing up the watts.

And so it goes, right across the land, all day long. The television set burns juice far into the night. Advertising signs pop on and eat more juice. Industry belches its wastes and burns energy with a lavish hand.

Right now, in our kitchen, the electric oven is glowing red. It will be for the next two hours. Know what's in it? One large potato, being baked.

Multiply the juice being consumed by this one family by about five million in Canada alone and I think you'll agree that we're a pretty extravagant, even sluttish lot, when it comes to being prodigal with natural resources that are going to be exhausted and can never be replaced.

And I haven't even mentioned such ridiculousities as electric tooth-brushes and electric carving knives.

Don't get me wrong, I'm no Spartan. I'll drive to work rather than walk. And leave that great hulking, rusting monster, that required so much energy to be built and burns up so much more, sitting in the parking lot all day.

The point is, I could walk to work, and it wouldn't hurt me. In fact, it would be jolly good for me.

And I don't expect my wife to get out the scrub-board and wash her hair in rain-water. But it might be jolly good for her, if she had to. Women, and men, have too much time these days to sit around and worry about their nerves.

Our fairly immediate ancestors didn't have time for nerves and ulcers. They didn't need pick-up pills to get going. There was no alternative to just getting going.

They didn't need three martinis to whet their appetites. They were just plain hungry. Nor did they need sleeping pills to get off at night. They were just plain pooped.

I'm not scared of an energy crisis. It might even be interesting. Anyway, I have my own energy crisis every day, when the alarm goes off at 7.15. That's what I call a real crisis.

O.P.P. REPORT

During the week of November 23rd - 30th there were five motor vehicle collisions resulting in seven personal injuries, six charges and \$5,170.00 damages.

One accidental shooting occurred on November 23rd in the township of Marmora. No charges were laid due to the circumstances.

An investigation into a family complaint revealed that one member of the family assaulted another. Upon request of the complainant, no charges were laid.

At 9:45 p.m. on Friday a car was checked out in the village of Madoc. Two of the four occupants were charged with "Possession of Narcotics". They will be appearing in

Madoc court later in December of this year.

Two Marmora youths have been charged with "Cause a Disturbance by Fighting" following an investigation into a fight in front of the Marmora Hotel.

A Madoc township man has been charged with "Drive while Prohibited" and "Breach of Probation" following a complaint received. His court order specified that he was to stay away from a certain residence and he failed to do so.

A Marmora youth has also been charged with "Breach of Probation". The Provincial Judge had set a curfew time for the youth and he failed to be at his residence before that time.

A Madoc Township man has a costly fine to pay following a charge of "Unlawfully Keep Liquor for Sale" against him. This charge was heard in Provincial Court (Criminal Division) Madoc on November 29th. The result was a fine of \$700.00 or 2 months impris-

onment. Also in court 36 charges of "Breach and Enter" were heard against one male subject. These were laid this past summer in connection with complaints of cottages being broken into. Eighteen of the charges were withdrawn in court and the other eighteen will be tried by County Judge in Belleville at a later date.

Liquor Violations: Intoxicated in a Public Place, 1; Having Liquor in other than residence, 3.

General Occurrences: Disturbances, 1; Compassionate Messages to Deliver, 1; Indiscriminate Shooting Complaint, 1; Malignous Damage, 4; Traffic Control Requests, 2. "How many times have you heard a fellow say he can stop his car on a dime? Don't believe it. Unless, of course he means the last dime at the end of a very long line of dimes. At 20 m.p.h. it takes forty-seven feet, three car lengths or 846 dimes to stop safely."

Provincial Constable, J. B. Mitchell.

BANNOCKBURN

Miss Laura Hannah, Agincourt, spent the weekend with relatives.

Mr. and Mrs. Walter Conley and daughter, Muriel, Trenton, called on Mr. and Mrs. Harris recently, while enroute to attend the White Carroll wedding at Bancroft.

Mrs. D. Vallieres, Cooper, was a caller with Mrs. M. Simpson one evening last week.

The marriage ceremony on Saturday for the Rose Donaldson wedding, was held in St. Bartholomew's Anglican Church.

Mrs. Harris visited her aunt, Mrs. Hegadorn, Wellington, on Saturday.

Mrs. Lorne Donly visited Mrs. J. Donly on Saturday.

Congratulations to Mr. and Mrs. Elvin Foster, who celebrated their 40th wedding anniversary on Friday night.

During 50 Years Of Licensing, Selling,
P. H. Naylor Sees Auto Come Of Age

(by Gene McGuckin)

Percy Naylor has had something to do with the automobile for most of his life. But then the automobile has had something to do with Percy Naylor for a large part of its life too.

And nearly all Madoc residents of the past half century who have driven horseless carriages have passed under the shingle bearing the name P. H. Naylor on their way into the Durham Street building he erected in 1919.

Countless hunters and fishermen have passed this way too. For, since the early 1920s, Mr. Naylor has been the operator of the provincial government's licensing bureau, in Madoc.

"I've given the driving tests to two or three generations in some families," he said in a recent interview.

"I remember when it cost only one dollar to get a driver's license," he said. "That included the test and everything."

Now, he explained, the test alone costs eight dollars. And if you fail and have to take it again, that's another eight. Over and above that, the licence itself costs three dollars. One of these three dollars, he noted, goes into the government's unsatisfied judgement insurance fund.

Even before Mr. Naylor got into the licensing business, though, he was already involved with automobiles. From 1919 until 1957, he held the General Motors franchise in Madoc.

This was why he constructed the building from which he has operated for 54 years. Originally it was a garage.

"I built it when I got back from overseas," said the First World War veteran who served with the Royal Canadian Horse Artillery from

CARDS OF THANKS

I wish to thank all my kind neighbours, friends and relatives for all the many, many gifts and deeds of kindness prior to my departure, to Florida as I may not reply to all Christmas greetings this year. However, I will try to send greetings from there early in '74.

Sincerely,
Gladys Bailey
48-1p

We wish to express our sincere thanks and appreciation to Cooper and Remington community for the money purse received following our recent wedding.

Bonnie & Bruce Askey
48-1

Mrs. Mabel Wiggins and family would like to express their sincere thanks for the visits, flowers, cards, and donations during their recent bereavement. Such kindnesses shown during the loss of a dear husband, father, grandfather and great-grandfather, Frederick G. Wiggins (Fred), are greatly appreciated and will always be remembered.

May we say a special thank you to Dr. Derry, Dr. Dosaj, Reverend Heard, Reverend Thompson and the MacKenzie Funeral Home.

DEATH NOTICE

CROUCH, Helen Ruth [Coveney] — Suddenly in an automobile accident at Newmarket, Sunday, December 2, 1973, Helen Ruth Crouch, wife of Paul Crouch, Toronto, and dear daughter of Mrs. Benson French of Crookston and the late Joseph Cio Coveney, dear sister of Robert C. Coveney, Tweed, in her 37th year. Cremation in Toronto, Tuesday, December 4th. Donations in memory to Ontario Society for Crippled Children may be made at the Bush Funeral Home, Tweed.

ARMSTRONG, Herbert Rod-erick — At the Toronto General Hospital on Tuesday, November 27th, 1973, Rod Armstrong, 951 D'Arcy St., Cobourg, Ontario in his 52nd year. Beloved husband of Geneva Ferne Holmes, (formerly of R.R. #3, Madoc), dear father of Alex and Janet of Toronto and Catherine (predeceased), dear brother of Margaret and Esther (Mrs. J. ST. JOHN'S A.C.W.

St. John's A.C.W. held their November meeting at the home of Mrs. Elvi Brownson. The president Lou Phillips welcomed all present. Mrs. Kay Thompson had the opening prayers and Mrs. Alma Cotton read the scripture reading. In our prayers for the sick we remembered all those who were ill in the Madoc Area.

The minutes from the last meeting were read and approved by the president.

The social report showed a lot of illness in the parish. These people are remembered with prayers, cards, flowers, fruit baskets and visits.

A letter from our Rector Rev. Thompson was read, thanking the ladies for all their hard work & effort, especially relating to the Annual A.C.W. Deafness, of which we were the hosts. Our president also thanked the ladies for their continued support and help.

The program for the evening was listening to a record called, "Still Talking" by Don Lonie. Mr. Lonie visits different High Schools and Institutions giving talks to the teenagers on the generation gap, drugs, alcohol, smoking, and fashion. He does this in a very comical way. A discussion followed on the various problems that teenagers face today.

The next meeting will be held on December 11th, in the Parish Hall. This will be the Xmas meeting and is open to all ladies in the Parish. There will be an exchange of gifts and a pot luck dinner.

The meeting closed with prayer. The hostess served lunch and a time of fellowship followed.

CHEESEMAKERS

(Continued from Page 1) ture, representatives, T. O. Heath of Picton, Keith Hubbs of Stirling and Terry Baxter of Peterborough.

The annual convention of the Central Ontario Cheesemakers' Association is held in conjunction with the show. Sessions were held at the Sun Valley Motor Inn last Wednesday and Thursday, with a wind-up banquet and dance Thursday night at Club Canara in Belleville.

On hand at the convention promoting milk for the Ontario Milk Marketing Board was Miss Heather Innes, Ontario Dairy Princess.

At the closing banquet, comments of the dignitaries at the head table showed a great pride in the achievements of our County Cheese producers.

First to offer her congratulations to the Association for a successful show on behalf of the City of Belleville was Major Robin Jeffrey, who said she hopes that they "continue until eternity to produce cheese." Following this, Warden Horace Casey gave a congratulatory message.

Member of Parliament for Hastings, Mr. Clarke Rollins brought greetings from the Provincial government and expressed a personal pride in the achievements of the dairy producers of this County. He

said it shows a lot of hard work, and this is a credit to Canada.

Being married to a cheesemaker's daughter, Jack Ellis, said he has learned a great deal about the industry, since becoming M.P.P. for Hastings. But, most important, he sees cheese as a product, "beyond a doubt the best in all the world."

Jack Bain, who had been Secretary-Treasurer of the Association for a number of years, said a few words, especially welcoming all cheesemakers present.

Chairman Lee Grills, then called on the Ontario Dairy Princess, who brought greetings from the Ontario Milk Marketing Board. Her comments showed that she was very impressed by the large number of entries in the display.

The President's message, by Ted Foley, gave a hearty welcome to all and a wish for everyone to have a good time at the dance to follow.

Several dignitaries and representatives of companies donating awards were on hand to make the presentations following the banquet.

Dancing to the Land O' Lakes Cruisers concluded a highly successful event.

Car Rolls, Damages \$900

A twenty-seven-year-old Madoc Township man escaped with only minor cuts when the 1972 Buick he was driving went off the road near Eldorado early Saturday morning.

Robert Keith Curtis, of R.R. #1, Madoc, while northbound on Highway 62, lost control of the vehicle 500 feet north of the CNR crossing at Eldorado, and went into the east ditch, where the car rolled over. The mishap occurred at approximately 3:00 a.m. An unidentified passenger in the car also escaped uninjured.

Constable Robert Bonter of the Madoc Detachment, Ontario Provincial Police, who was the investigating officer, has charged the driver under Section 83 of the Highway Traffic Act. Damages to the vehicle were estimated at \$900.

FRIENDLY HINTS

RINGWORM CAN BE A WINTER PROBLEM

Upon the first sign of ringworm in cattle, it is a good idea to immediately isolate the animal from the rest of the herd, if possible. The disease is readily transmitted from animal to animal and from animal to man, by direct or indirect contact. Ringworm is most commonly caused by a fungus.

Although cattle of all ages are susceptible, the disease is most common in calves. Also, it is more commonly seen during the winter months in stabled animals, but may occur at any time.

How Do You Recognize Ringworm

After an incubation period of two to four weeks, the hair in the infected area breaks off or falls out. After two to three months, thick scabs may appear. In the early stages the surface below the crust is moist. In older lesions the scab becomes detached and a small circular, hairless area may be the only detachable sign. Likely areas of infection include the skin around the eyes, ears, muzzle and neck; but few areas escape infection if the condition is left untreated.

How To Treat It

Ringworm usually responds to local application of fungicidal drugs when the thick crusts are first removed with a stiff brush and mild soap.

Persistent treatment may be required. Daily applications of a mixture of equal parts tincture of iodine and glycerin or a 20 per cent of sodium caprylate to the lesion until it disappears is often effective. If animals do not respond to treatment call your veterinarian. The best way to avoid ringworm in cattle is a good hygiene and good sanitation program.

LOOKING BACK

50 YEARS AGO
DECEMBER 5, 1923

Fred Davis, of Wellington, has launched a new enterprise at Wellington — a coon farm — and expects to make of it a very successful venture. Already he has erected kennels and has put a considerable sum of money in this business. Recently he was in New York City and environs and learned of the successful farming of coons there. Coon farms require a considerable strength of land.

Violent and sudden deaths in Toronto for the first 11 months of the year showed an increase over the whole of 1922. Of the 509 deaths in Toronto since January 1, 1923,

310 have been sudden or violent. Motor cars have killed 45 persons and 5 have been murdered. The list for the 11 months is as follows: Asphyxiation 30, automobiles 45, burned 22, falls 19, drank poison 6, shot 8, street cars 8, suicided 13, alcohol 12, machinery 3, electrocuted 4, drowned 6, murdered 5, hanged 3, stabbed 1, coal gas 1, smothered 1, crushed 1, train 5, choked to death 1, and a lad killed by wire stuck in his head. The above death report in Toronto for the first eleven months of this year is startling and there must be a remedy within human control. Every accident is a result of a mistake or mistakes made by some one and if these could be traced back to their real source it would be found to be due to lack of self-control and lack of self-control can be traced to lack of obedience. The inability of parents, teachers and others to enforce obedience has led to the inability of the individual to control himself. Many years ago Goldwin Smith spoke of this condition among young Canadians. It manifests itself among children in their relations to their parents. How few children are willing to acknowledge the authority which parents should exercise over them. This can be readily shown by the use of the words "Old Man," "The Boss," "The Governor," and

such like phrases which young Canadians apply to their fathers and the parents in their turn are unwilling to allow teachers to exercise proper discipline over their pupils and the result is that Canadian youth, never having been trained to obedience, are unable to discipline themselves and the results are seen in just such conditions as are reported in the city of Toronto and other places. You cannot improve on the instruction to parents "Train up a child in the way in which he should go." All the laws and regulations enacted by legislative bodies, together with all the penalties attached, is not the remedy.

Six Stirling youths were given suspended sentence on account of their youth on entering into bonds of \$200 each, and they must pay Rev. Elijah Bundock \$100.00, and in addition all costs of the case, as the aftermath of the recent coat of tar and feathers administered to Bundock by them. Six boys came up under a charge of assault although W. C. Mikel, K.C., of Belleville, private counsel for Bundock, wished to withdraw the charge of assault, so as to protect Bundock's civil remedies. This, however, the Crown would not consent to and this trial will be the final disposal of the affair.

The readers of the Review have followed the career of Queen College Rugby team from the time they stood on the lowest rung of the Rugby football ladder until they stood on the third rung from the top, when they won the intercollegiate Championship, then climbed on the second, when they won the Eastern Provincial Championship and now having won the Championship of all Canada they occupy the

topmost rung of the ladder and are considered to be one of the greatest Rugby football teams that Canada has ever produced. Whilst our readers have been following with pleasure the triumphs of the Rugby boys we are sure they will learn with pleasure of the success of our popular young townsman Mr. Eric Cross, who was chosen to represent his Alma Mater in the intercollegiate Tennis contests and again nominated as President of the Alma Mater Society which he came within a few votes of winning. To be President of this Society is one of the greatest honors in the gift of the college students and the Review congratulates Mr. Cross in the signal distinction of having been nominated for that position.

Communication — The Editor of The North Hastings Review, Dear Sir: As a citizen of Madoc, I think the present Council should be commended for the splendid progress and their untiring efforts in improving living conditions in the Village. They have made numerous improvements such as: parking lot, garbage collection, new jail with sanitary conditions, cement walks in various sections, those blinkers as a safety measure in traffic, an engine for the pump, 550 ft. of new hose, and the park which was frequented by children during the intense heat last summer. I understand this was done without any additional burden on the taxpayer. Now they are about to install a water system which is so badly needed from a health standpoint, as with so much concentrated filth we cannot expect to have water fit for domestic use and this has been proven by tests. Lack of adequate water supply is felt very keenly here in connection with fire protection, especially when our local creek is dry, and then, the odour of filth is so pronounced people dread coming in reach of the bridge. To my mind the Reeve and those young men who are at our service should get our full support in making Madoc a better place to live. Taxpayer.

A meeting of the members of the Madoc Community Club was held in the Council Chambers on Tuesday evening with former President, Ted Naylor, in the chair. After a long discussion it was decided to turn about \$70.00 which the Club had in the bank over to the Legion Building Fund. The piano which has been used by the Kiwanis Club for the past year, is to be loaned to the Madoc Public School Board for use in the school. The meeting then appointed Reeve Jack Kincaid as Chairman, when the following officers were elected: President, C. I. Ross, Secretary, Percy Gunn, and Treasurer, T. H. Rupert.

That the ratepayers of Madoc Village are interested in municipal affairs is indicated by the large number who attended the nomination meeting held in the Town Hall last Friday night. Those present numbering nearly 150, including several women. Following the official nomination, Clerk Fred Curry acted as Chairman for a meeting in which all nominated were given an opportunity to speak. Reeve Jack Kincaid was given an acclamation and after thanking the electors for the honor accorded him, gave a short address, referring to County Council affairs and the local waterworks. He was elected chairman of the County Publicity Committee. P. H. Naylor and T. H. Rupert representing the Hydro Commission reviewed the work that had been done by the Commission during the past year. There were six nominations for School Trustees. Percy Derry and W. Hart were nominated, besides the following, who are standing for election. W. Hart, a member of the Board stated that he didn't intend to qualify again as did Percy Derry. Ken West and Robert McCoy spoke briefly, stating that they had enjoyed working on the Board, but were not prepared to state whether they intended qualifying or not. Both have since qualified. Jack Baker, Kenneth Holmes and Ernie Lough were nominated and are seeking office. Only five were nominated for council. Percy Derry, who stated that he would decide later, if he

intended qualifying. Philip Rivers, Chairman of Streets, was the first of this year's Council to speak. Judson McGowan, Chairman of Side-walks was the next speaker. Wesley Hulin, Chairman of Property spoke next and Murray Smith, Chairman of Finance and Fire Protection, was the last Councillor to speak.

Mr. and Mrs. John W. Richardson will be at home to their friends on Sunday, December 11th, two to five and seven to ten p.m., it being the occasion of their forty-eighth wedding anniversary. Birth — Mr. and Mrs. Albert Moon (nee Irene West), Madoc, are happy to announce the birth of their son, Gary Allan, at Belleville General Hospital, on Friday, November 25th, 1949.

Wedding — On Saturday afternoon, November 26th, Rev. Alfred Poulter officiated at the marriage of Roger Joseph Levine, of Ottawa, and Helen Marjorie Perry, of Minden. The wedding took place at the United Church parsonage at Madoc. The bride and groom will live in Minden where the groom has a position with the Hydro Electric Co.

The Madoc Santa Claus Parade, sponsored by the Madoc and District Chamber of Commerce was held on Saturday afternoon last. As usual, this event attracted a large crowd to the village with about 1,100 youngsters receiving gifts of candy. In the morning the Village children attended a free movie in the Empire Theatre and following the parade the children from out-of-town were guests of the Chamber at the theatre. This year's parade was headed by Miss Dorothy Dickey's Drum Majorettes, of Belleville, and the Madoc High School Bugle Band. The parade was composed of decorated floats, character costumes, army personnel, saddle horses, Madoc District Band, 1959 new decorated cars and last but not of least importance, the Chamber of Commerce float carrying Santa Claus and drawn by two teams of black horses. Those taking part in the parade were 'B' Coy, Hastings & Prince Edward Regiment, Canadian Tire, Kincaid Bros., Madoc Creamery, Devolin's Grocery, Bill Cook Wholesale, Bristol Builders' Supplies, Kiwanis Club, Madoc Fire Department, High School Cheer Leaders, Tommy Deline with his Toronto Star Float, Pigden Motors, Derry's Garage, Armstrong Bros., Brett's Garage, Nickle's Motors and saddle horses ridden by Charles Johnston, Pat Kincaid and Ron Stewart. Pigden's P.A. system was on hand and Parade Commentator Ken Holmes kept the crowd informed as to what was taking place. Senator George White on behalf of the Chamber welcomed those present to the village and extended Season's Greetings to all.

The custodian of enemy property hopes to mail \$2,000.00 worth of cheques by January 20 to Canadians who were maltreated prisoners in World War II. K. W. Wright, Ottawa, chairman of the custodian's board of administration, said Friday that 2,002 cheques were mailed up to Friday, about 25 per cent of the total. He said "hundreds" of letters have been received asking about the cheques but that a lot of work has been necessary in tracking down addresses, deaths and other information. The cheques represent a bonus payment of 50 per cent, authorized October 23. The money derives from assets of belligerent enemy property seized by the Government during the first war and placed in the hands of the Finance Department as a war claims fund. Initial payments to maltreated prisoners of war have been going on for four or five years. Where a recipient has died the Treasury Board decides who will get the bonus payment.

At the final meeting of 1958 Deloro Village Council, Friday, December 5th, a motion was passed thanking Reeve Mr. C. H. Buskard for his valued leadership and understanding of village matters. Mr. and Mrs. Buskard are leaving on an extended tour of

the Southern States and will be long remembered in this district. Mr. Buskard has served thirteen consecutive years as Reeve of the Village of Deloro.

Hungry thieves forced their way into the R. B. Hamilton store at Foxboro, Monday night, and got away with a still undetermined amount of petty cash. They also made off with a roll of smoked ham. Filing cabinets in the store office were ransacked apparently in search of cash. A small amount of store money in silver was taken while funds of the Foxboro Hunt Club also disappeared.

A contract to the H. J. McFarland Construction Company for \$421,645 for grading and base structure on 6.77 miles of No. 41 highway from Kaladar to Northbrook is among 17 highway contracts announced Monday from Queen's Park.

Births — Mr. and Mrs. Gerald Austin are pleased to announce the birth of a son, Alexander Gerald, a brother for Cheryl, at Toronto General Hospital, on December 3rd. At the Alexander Nursing Home, on November 27, to Mr. and Mrs. Everett Moorcroft of Madoc Township, a son, Allan Frederick, a brother for Lois and Marilyn.

WHY

WHEN

This is a Health Unit Dental Service to promote mouth protection in contact sports.

High school students can be fitted for a "Pro-form" mouthguard at the Mouthguard Clinic at their school. This is a custom-made, internally-worn guard which is comfortable to wear, does not restrict breathing and allows normal speech. It was originated by the Minnesota North Stars and is now used by many professional athletes.

Students pay only for the cost of materials - \$5.00, for a guard which may cost up to \$30.00 if provided in a dentist's office. Payment must be received at the Mouthguard Clinic. Make cheques payable to: Dr. Warrick - Mouthguard Project.

An insurance policy covering treatment of dental injury to a maximum of \$300.00 is included.

A guard of this type will prevent 95% of tooth and jaw injuries in contact sports. With 2000 students now fitted, this project has reduced dental injuries 50% in Northumberland and Durham counties in the last year.

ENERGY

IF WE EACH SAVE A LITTLE, WE'LL ALL SAVE A LOT.

With supplies of crude oil in Eastern Canada barely sufficient to meet demand, real shortages of gasoline and heating oil could occur here in Ontario if we can't maintain our imports. Alternate, more dependable forms of energy are being developed, but that will take time. What is important today is that each one of us makes the best possible use of existing energy supplies.

Little ways in which you can save energy may seem insignificant, but in fact they are not. For example, it has

been estimated that if each person in Ontario saved just a penny's worth of energy each day, we'd save enough energy in a week to heat up to 2,500 homes for an entire year. Nobody has the right to waste any form of power. The time has come for every person to do everything possible to ensure the wisest use of energy. Good energy habits learned now, especially by our young people, will help bring us through this winter, and pay off even more in years to come. Let's get to work.

47 ways you can conserve energy. A program for voluntary action!

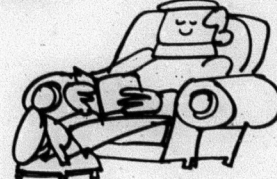

1-7 Your heating system.
Clean forced-air filters once a month
Bleed air from hot water radiators, fix leaks
Empty the flue clean-out
Have the system checked by an expert
Insulate ducts and pipes in areas that don't need heat
Don't use metallic paint on radiators
A gravity air system with a single return works best with interior doors open.

8-13 Keep the heat in!
Insulation, especially in attics, pays off in the long run
Fit storm windows, weather-strip outside doors
Keep fireplace damper closed
Use range hood ventilators only when necessary
If you sleep with the window open, close the door
Close drapes at night.

14-17 Use your thermostat.
Each degree you lower the thermostat cuts fuel consumption about 3%
It's possible to save by turning the

thermostat down at night
If you use a humidifier, you'll stay comfortable with less heat
If there's a Shivery Sam in the family, ask him to wear a sweater.

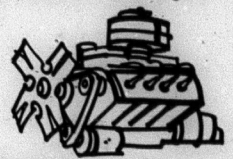

18-22 Hot water.
Insulate exposed hot water pipes
If your water heater has a dial, try setting it lower
A dripping tap wastes up to 175 gallons of hot water a month
Don't use dishwashers till they're full
Generally, a shower uses less hot water than a bath.

23-32 Around the house.
Are the door seals on your oven, refrigerator and freezer good?
Don't use the oven if a toaster or fry-pan will do the job
If you buy an electric heater, make sure it has a thermostat
Use lower wattage bulbs if you can
Use Christmas lights from 6 pm till bedtime
Use pots that cover stove elements
Thaw frozen food before cooking
Defrost freezers regularly
A pressure cooker saves energy as well as time
Don't use the dryer till it's full.

33-39 On the road.
A well-maintained car is an economical car
Check tires and alignment

Prolonged idling wastes gas
Can you use the bus? Or ride with someone else?
Does your size of car really fit your needs?
Over 50 mph, economy decreases
Jack-rabbit starts waste gas

40-44 Around the farm.
A well-tuned tractor burns 10% less fuel
Underground or pressurized storage tanks reduce vaporization loss
Reduce tractor wheel slip and you save fuel
Prolonged idling of engines wastes gas
Can you turn yard lights off earlier?

45-47 At work.
Can the thermostat be turned down?
Can you turn off any lights?
Has your company got an Energy Conservation Suggestion Scheme?

We're taking our own advice.
All Ministries and Agencies of the Ontario Government are doing their bit to conserve energy. Lighting and heating levels are being reduced in government buildings; a new emphasis is being given to economical operation of vehicles; Ontario Hydro and the Ministry of Education are encouraging consumers and schoolchildren to learn good habits in the use of energy. And that's just a beginning!

Save this check list...and save energy!

Ontario will play its part in resolving the Canadian energy situation. Carrying out these suggestions will help achieve the national energy conservation goals.

members obtaining 75% or over. The members are: Brian and Grant Moorcroft, Angus McKinnon, Brian and Gary Robinson, Tejay Sexsmith, Allen, Sandra and Stanley Stein, and Jim Wannamaker.

The Madoc Co-operative Association Award was presented to the top Intermediate member of the Madoc 4-H Potato Club, Angus McKinnon; and the Elizabeth Sager Award to the top Junior member, Allen Stein. Seven of the eight members enrolled completed this project under the leadership of Allan Sager. The club was sponsored by the Madoc Kiwanis Club.

Leader Lee Gillespie of Thomasburg saw the 12 members completing the project.

ings County 4-H Natural Resources Club all receive 75% or over. Sandra Stein won the Hastings County Junior Farmers Award as top member.

Three Madoc area youths were presented with Breed Association Awards: namely, The Hastings County Holstein Club Awards went to Sandra Stein and Brian Robinson, while the Ontario Hereford Association presentation of a tie tack or lapel pin plus a year's subscription to the Canadian Hereford Digest to a second year or over member, was presented to Charles Wannamaker, among 10 members: from within the County.

Certificates for having completed six projects were

presented to Allen Stein and Angus McKinnon; for 12 projects; to Stanley Stein; and for 18 projects, Sandra Stein, as well as to many other members throughout the County.

Special recognition was made of all 4-H Club Leaders, who have given up so much of their time and energy to be involved with the 4-H program in Hastings County. It is their encouragement and guidance that is so important in the development of our young people.

A 4-H Leader's pin is presented to each new club leader and certificate to those who have been leaders for five and ten years. Several of these special awards were presented this year, as follows: Leaders Pins, Lee Gillespie, Thomasburg; Jack Walsh, Corbyville; and Ross Moorcroft, Madoc; Five-year Certificate, David Foley, Madoc; 10-year Certificate, Edmund Reavie, Flinton, and Mac Sharp, Stirling.

Numerous Hastings County Awards were presented, but members from this area receiving these special awards were: County Championship Show, Madoc Fair, Tie-up Shield, for the best overall display of calves including signs, neatness, courtesy and attitude of the club members.

hills. We went to the top of a hill and we saw many beautiful houses and ski resorts. Afterwards we went to a ski resort and we saw people skiing on artificial snow.

On Wednesday everybody loaded their cameras and took a tour of Montreal. We went to the Montreal Forum but we never saw a player. Then we went to the Metro (subway). It was fun and exciting and different. Afterwards we visited Place-Ville-Marie. Then we went to Mount Royal where we saw the cross in memory of the first one, erected by Maison-neuve. We visited the huge and beautiful St. Joseph's Shrine. Next we saw the horses at the R.C.M.P. stables.

(continued next week) By the way our teacher is Mrs. Hailstone not Mrs. Mailstone.

was won by the Madoc 4-H Calf Club; and the Hastings County Cream Producers Dairy Stockmans Award, for the highest score in the 16-year-old, section of the Stockmans Competition at Madoc Fair, was won by Sandra Stein, of Eldorado.

A Proficiency Award Bus Trip is awarded annually to the highest scoring member in each 4-H club in Hastings County who has obtained a 75% or better proficiency score. Members of the 4-H Agricultural Clubs may win the trip only once. First-year members are not eligible. The 1973 winners, 17 in all, included Brian Robinson of R.R. 1, Madoc, for the 4-H Calf Club; and Angus McKinnon, R.R. 2, Madoc, for the Madoc 4-H Corn Club.

A Madoc girl, Sandra Stein, was presented with the Canadian Imperial Bank of Commerce Award as the outstanding 4-H agricultural club girl

member in 1973 and the outstanding boy was Stephen Clare of Corbyville, who received the Victoria and Grey Trust Company Award. Two members tied for the Canadian Imperial Bank of Commerce Award, a Balova wrist watch, which is awarded to the Senior 4-H member or graduated member whose contributions and achievements have been outstanding in Hastings County.

There was no valedictorian this year, but speeches from members who had attended the Regional 4-H conference in Peterborough and the 4-H Provincial Leadership Week in Guelph were given.

We have a new catalogue for this year and will be allowing the choices to be made on a first-come basis.

Former Madocer Elected

Word was received this week that a former Reeve of Madoc, Mr. Jack Kincaid, who is now Reeve of Hagersville, has proven his popularity among the people where he now resides by again being successful in an election.

Heading the poles for 'Area Councillor', Mr. Kincaid took the win by over 100 votes, defeating his closest opponent 556 to 447.

It is hoped that we will have more on this for next week's paper.

GRANT APPROVED

Clarke T. Rollins, M.P.P. Hastings, announced this week that he has been advised by The Honourable Claude F. Bennett, Minister of Industry and Tourism that the Highlands of Hastings Regional Tourist Council have been granted \$7,184.91 in support of the Council's programs of travel information, promotion and tourism development for the Highlands of Hastings area.

STUDENTS LEARN ABOUT FURTHERING EDUCATION

On Wednesday, December 5, the Senior students of C.H.S.S. had a chance to meet and talk to three University professors. These professors were: Mr. Brilling from Waterloo University, Mr. Edwards from Trent University, and Mr. Crozier from Trent University.

The students presented questions on such topics as:

social life; food; living quarters; types of classes; freedom of choice; and other topics, which covered an hour and twenty minutes.

After school the teaching staff were able to ask questions and get answers to problems concerning how they could do a better job of preparing the students who go to university.

C.H.S.S. Students Entertain Tweed Senior Citizens

On Wednesday, December 5th, a group of 57 Senior Citizens of Tweed Club No. 399 travelled by bus to Centre Hastings Secondary School here in Madoc, where they were entertained by the staff and students of that school to view first-hand various phases of the student activities.

The bus left the Tweed Anglican Church yard shortly after noon. On arrival at the school, the group was met by two young ladies of the Special Education Department, who presented a miniature mauve or helicopter baby 'mum and fern corsage to the ladies.

The Club assembled in the spacious auditorium, where Mr. Wally Beevor, Principal, spoke warm words of welcome to all and invited them to plan activities which could bring them into the school more frequently and in closer contact with the younger generation. Mr. Bill Aylsworth's Senior Concert Band entertained the visitors with many familiar and rousing selections, concluding with Christmas melodies. The applause signified the enjoyment that the group derived from this lovely musical entertainment, with thanks to the Director, Mr. Aylsworth.

Ten ushers from the commercial department then guided groups to various areas and departments within the school. Several Senior Citizens were interviewed by students of the "Man in Society" courses, who are currently studying the problems of the aging generation. Still others

SNOWMOBILE SEASON OFFICIALLY HERE

With the arrival of the first lasting snowfall on the weekend, snowmobilers have taken to the open country again.

But, snowmobile season is not officially here until members of the Baker family make their annual trip to Mother's Restaurant on the Black River Road north off No. 7 Highway, east of here.

Glen, Winston and Bill Baker each received a certificate for free dinners for two when they arrived there by snowmobile on Sunday evening, December 9th.

This is the fourth year in a row that the Bakers have been the first snowmobilers to visit the restaurant and to receive the usual gift.

County Planning Board Outlines Plan

A number of interested area residents turned out at the Madoc Public School last Thursday evening to view explanatory maps and to discuss with members of the Hastings County Planning Board the Official Plan which the County Council is considering adopting.

The meeting was of particular interest to people of the Townships of Elzevir, Grims-thorpe, Madoc and Marmora and the Villages of Deloro, Madoc and Marmora.

Mrs. Mary Moroz, Project Planner for Totten, Sims, Hubicki Associates Limited, Mr. Niall Carney, the Planning Director, and members of the Board Felix Brown of Bangor, Wicklow & McClure, Cecil

Woods of Madoc Township and T. C. Barton of Madoc Village were the panel to whom the questions were delivered from the floor, after a brief explanatory comment on the large maps on the wall outlining the various facets of the Official Plan by Mrs. Moroz.

Mrs. Moroz explained that the Plan is necessary to ensure orderly and proper development within the County in future years. The Planning Board has established the pattern which development within the Hastings Planning area should follow during the period 1974 to 1991.

However, the Plan is by no means final. The Board will continue to hold meetings similar to the one held here last week, and will review the questions raised at these meetings and then make a final review of the plan before it is turned over to County Council. In an effort to seek out any errors that may have occurred, copies of the Plan have been left in all municipal offices and public libraries for the people to examine. Any disapprovals should be pointed out to the municipal council, which will, in turn, make the recommendation to the Planning Board. When the Board is satisfied that nothing has been overlooked, they will submit it to County Council for approval. From there, it will go on the Provincial Government, where it will be thoroughly studied for final approval. The final approval must suit the County, the Province and the Federal government. It does not become official as a By-Law until the Minister signs it, and even then, it may still be amended. It was pointed out

that the approval at the provincial level is necessary because there may be some interests (Example, future road development) of which the Planning Board is not aware — and in that case, there would have to be some compromising done.

However, at the County level, the Plan is given a first, second and third reading, after which printed copies will be mailed out to every ratepayer, who has 14 days to state any objection to the Clerk. Council will then study the complaints and make alterations as they see fit. Results of this would then be sent to the Ontario Municipal Board which would call a hearing in the municipality and make a decision from that.

Anyone who was unable to attend this meeting because of other activities the same night, is advised to go the similar public meeting planned for January 9th in the Village of Tweed to view and discuss the Plan.

Brownies, Cubs & Scouts Involved In Parade

The 1st and 2nd Madoc Brownies spent a very busy day on Saturday, beginning with the Santa Claus parade. On the main float representing Brownies, Cubs & Scouts, twelve Brownies sat around a giant toadstool, a must to all "Brownie Rings". The remaining Brownies, sitting or kneeling in a large Christmas package, followed behind singing carols.

After the parade, to warm up they jogged to the High School where they were served refreshments, compliments of the Madoc Chamber of Commerce.

That evening at the Kiwanis Centre together with the Scouts & Cubs a Family Christmas Party was held. After a group carols session accompanied by Miss Nicola Thompson at the piano, First Pack led off the entertainment by presenting some "Thoughts of Christmas" followed by "Twelve Days of Christmas" and a "Merry Christmas" round. Second Pack were third on the program with a Nativity Scene. Brownies, dressed as angels and shepherds, sang appropriate carols and Brown Owl Matchett read the Christmas Story.

On behalf of the Legion Captain Thompson presented the Scouts with a certificate for helping with the Poppy Drive and a cheque to the group.

The Scout part of the program took the form of a skit. Location: North Pole, Jet Rental Service, Time: December 24th. Five planes lined up in the show room when Santa's helpers came in and asked for a plane. After they looked at five planes, which were too small, they came to a 747 Jumbo, but they could not get it going, so they asked for help of the Brownie, Cub and Scout Leaders. After they had all the

DAY CARE AT C.H.S.S.

A busy term is nearing completion for our 40 little people. The children in our day care centre are busy preparing paper chain decorations for our tree, mailing letters in Santa's mailbox and anxiously awaiting party week. Excitement is mounting and the lists of requests so far submitted for Santa's approval is unbelievably long and includes several tractors, dolls, a kitten, and a baby sister! The grade eleven girls, who are responsible for the programme and care of our preschoolers, have had lively experiences in this section of their family life and child care course. Carolyn Thoms is here seen discussing Christmas with the Thursday group. The channel 4 "Insight" programme on Sunday, December 16th will feature a special presentation from our Day Care Centre and a taste for the viewers of a typically hectic afternoon with fifteen 3 and 4 year olds.

Madoc Couple Celebrate 49th Anniversary

A Madoc couple were recently honoured at a surprise party given by their family on the occasion of their 49th wedding anniversary, which they celebrated on Monday, November 26th.

The party for Mr. and Mrs. Harry Whiteman of 25 Marmora Street, took place at the home of their daughter and son-in-law, Mr. and Mrs. Carl (Bev) Derry on the Saturday evening preceding their anniversary, November 24th.

Lovely bouquets of flowers and an anniversary cake were presented to the couple.

Present for the occasion were Mrs. Jack Scrutton and Miss Valerie Sherrow, both of Madoc, and the following sons and their wives: Mr. and Mrs. Bill Whiteman and Mr. and Mrs. Milton Whiteman, all of Belleville, and Mr. and Mrs. Bruce Whiteman of Madoc. Also present was a granddaughter, Mrs. Ken VanVolkenburg, accompanied by her husband, from Belleville and other grandchildren, for a total of 24 in attendance.

Three of the couple's children were unable to attend, but sent congratulatory messages and flowers. They are, Mr. and Mrs. Reg. Holden, Mr. and Mrs. Carman Whiteman and Mr. and Mrs. Robert Whiteman, all of St. Catharines.

SANTA CLAUS PARADE WAS MADOC'S BIGGEST

(By Crichton Harrop)

At 5:30 a.m. on Saturday, Verne Pegg shook himself awake and headed up to Toni's Flower Shop. He slipped inside, and yelled in fright as he bumped into an eight-foot rabbit. This awoke Gavin and Toni Adams, and parade day was begun. There were still many things to be done — floats to be completed, position stakes to be hammered in along the streets, headquarters to be set up, and furniture to be moved.

In another part of town, Crichton Harrop roused his complaining body, and set off on his duties. He went over and woke up Bill Taylor and his family so that the Anglican Church float could be completed. Then he went over and joined Toni and Gavin Adams for the morning's fun and games.

By 10:00 a.m. Verne Pegg had set up his headquarters at Bert Jones's auto dealership, and messages were being passed back and forth by walkie-talkie as the parade organizers put the finishing touches on the details.

Floats started to be put into position at 10:30 and by 1:45 all the floats were lined up correctly. At 2:01 Verne and Allan Armstrong gave the signal that the parade was rolling. Downtown over 1,000 people awaited the parade. Less than five minutes after the police car started moving with Allan aboard, Terry Pigden and Grant Ketcheson started to inform the crowd about Madoc's biggest, ever, parade.

Suddenly, there was an emergency — the parade of 50 floats was too big for the route chosen. With Mary Pigden acting as radio intermediary between Crichton Harrop, high atop a building, and Allan in the police car, a decision was reached to take the parade along St. Lawrence St. East one more block, and then over Embury's hill. The decision was right. The head of the parade did not catch up with the tail. With the tail of the parade barely past the four corners, the head reappeared up Durham Street. The parade went very smoothly to its conclusion at 3:15.

After the parade, bedlam broke loose. Santa was swamped with children at his workshop beautifully decorated by Bob Hudson. Ray Burris and others handed out candy to the children.

Many children attended the movies at the public school, while their parents went shopping. It seemed to this writer that there were more people in the stores last Saturday than usual.

Most of the participants in the parade went over to C.H.S.S. afterwards for a free hot dog and a drink. Crichton Harrop climbed up on a chair and thanked everyone for the help in making the 1973 Santa Claus Parade the biggest and best that Madoc has ever seen.

After greeting hundreds of children, Santa went over to the nursing home to see all the nurses and patients there. By then, poor old Santa was extremely tired, but still game.

After the parade a party was held at the Kiwanis Centre for the Brownies, Cubs and Scouts. Heather Kirkwood thanked the Kiwanis for sponsoring the floats. Scouts and Brownies' lifts year. Jerry Rollins, first vice-president of the Kiwanis, replied that they were very proud to sponsor these organizations.

When a parade of this magnitude is organized, there are many people you have to thank. This writer hopes that he got everyone's name right.

The biggest thanks of all should go to Jim Watson who was self-in-chief until last Wednesday, when illness struck him down. Because of Jim's illness, everyone on the committee pulled together to make sure that any detail that Jim had not had time to look at was dealt with before there was a crisis. Jim attended the parade with his father. We all hope he gets well soon.

All the members of each of the sub-committees (finance, floats, bands, publicity, tourist booth) should be thanked. Ray Burris saw to it that the money continued to flow in. Bob Hawley, Larry Stickwood and Allan Armstrong made sure that the bands would appear on schedule. Gavin Adams, Toni Adams, and Verne Pegg did a great job creating floats, making sure that floats were created, and running the parade after Jim's sudden collapse. Bob Hudson did a beautiful job decorating the tourist office ready for Santa's visit. Those who decorated the streets that sunny Sunday made the town Christmasy, despite the lack of snow, for the parade.

In any parade there are always lots of people who do things for a parade, but who are never mentioned. I hope that I've got them all here. Thanks go to the following: Brenda Hudson and her art classes for creating lovely signs for the sponsors of the O.F.Y. floats; Paul Jones for being very good at running messages, hammering in stakes, and bringing floats up; Bert Jones, a tip of the hat, for giving the parade excellent publicity on the radio, and allowing his property to be used by floats; Kate Kincaid and her staff for providing excellent food and hospitality for the parade participants;

DO THEY EVER
GROW UP?

by Bill Smiley

Perhaps someone who has gone the whole course can tell me when one's children stop depending on their parents when it comes to the clutch.

Is it in their forties, fifties, sixties? Certainly it is not in their twenties.

Recently, we received a note from our son Hugh, to tell us he was taking some holidays and would be home for a few days' visit.

I thought, "Good. He's saved some money and won't arrive broke, as usual." He had.

Some days later, in a telephone conversation with daughter Kim, we learned that Hugh had dropped in to see her, and had drifted off, muttering something about going to Chicago.

That is a slightly roundabout way of getting to my place. And a few days later there was a collect call from Houston, Texas. You guessed it. Hugh, flat broke. Could we wire him money for bus fare to get home?

He was crafty enough to call when I was at work. I would probably have refused the collect call, and regretted it later. Or I'd have shouted, "No, I will not send you the price of one serving of Kentucky fried chicken," and slammed up the receiver.

But he sweet-talked his mother for five minutes before he popped the question. She was not only affronted but taken aback and didn't think quickly enough to tell him we were just off to Florida or the west coast or anywhere.

She waffled a bit, and eventually said she'd see what his Dad said but not to expect anything. He sighed with relief and told her where to send the money.

I came home from work on a Friday after a hard week. All I wanted was to get my shoes off, have a quiet drink before dinner, and read the latest goodies about the energy crisis.

And all I got was a family crisis, a scramble to the bank, and a dash to get to the telephone office before it closed for the weekend.

At first I stood my ground. Not a penny. Let him starve in Houston. At least he won't freeze to death (he'd airily told his

mother it was 90 degrees down there.)

And she agreed with me. "He doesn't deserve a cent. He was told he was never to do that again. Ungrateful young pup. Why doesn't he hitchhike home?"

"Well," I said, "some of those southern states are pretty tough on hitchhikers. Throw them in jail for a month."

I could just see her thinking of her first-born slaving on a Georgia chain-gang or something of the sort. After a heated half-hour, we agreed that money isn't everything, that you can't take it with you, that he's the only son we have, that it would be nice to see him, and that I'd better hustle if I wanted to get to the bank in time.

It cost me about \$115, counting the bus fare and grub to get home, the cost of the collect call, and the charge for sending the money.

That's what I call sending good money after good. Of course, Hugh wouldn't dream of accepting a gift. It was strictly a loan. According to his figures, he now owes me \$380.00, without interest, and will have the whole thing paid off any time now. According to my figures, he owes me \$880.46, at eight per cent interest, and he'll never pay it off.

This has been happening to me for years. First, the kids go to their mother, and soften her up. Then she comes to me, and softens me up. Then I go back to the kids and practically apologize for being so slow with the loot.

Of course, I reason, Hugh's only a kid. Practically a baby. He won't be twenty-seven until July. You can't expect him, at that tender age, to know enough to SAVE SOME MONEY FOR BUS FARE HOME!

But that other kid. She's a different matter. She's almost a mother. And she pulled a swifty on us this week. Another collect call, on Sunday. Nice to hear her. Asked how big the tummy was. All very matey and maternal.

Then came the punch line. Don, her husband, was on the way up from the city with their cat, to put in our care. He had to hitchhike because he couldn't bring the cat on a bus. Her mother nearly blew a cork. The danged cat isn't trained.

So we have two additions to the household this week. Two fat cats. One in the backyard, yowling to get in. The other watching TV, sleeping till noon, and waiting to put the bite on me for more bus fare back to his job in Quebec.

I should have been a cranky old bachelor.

Dear Madam:

This is a note of appreciation from one who might have had his weekend spoiled, but for the help of some of your young people.

While driving in Madoc sometime past midnight Friday, a supporting bolt sheared off the trailer I was

towing, completely disabling it.

Before I could figure out what to do, several fellows stopped their car and began to help. First unloading and tipping up the trailer. They were joined by others, who pitched in and had me mobile in a very short time. They would accept no payment for their effort.

Don't knock your teenagers, people of Madoc. They're tops in my book.

Young hitchhikers, watch for me. You'll not be left behind again.

Christmas Tea

On November 28th, Eldorado United Church Women held their Christmas Tea and Bake Sale. The artistry of the decorating committee in the newly decorated Sunday School room with pine, poinsettias and holly chain made an interesting setting for the occasion.

Despite the inclement autumn weather it was a lovely afternoon. Courageous people came from as far as White Lake and Zion, also from Queensboro, Hazards, Cooper, Madoc, and Bannockburn, helping to make it an enjoyable and worthwhile day.

LOOKING BACK

50 YEARS AGO December 12, 1923

On Monday evening about eleven o'clock a car from Belleville driven by Gordon Elliott was returning home after the play in the Methodist Church, when about a mile from Madoc the wheels on the car became locked, turning the car upside down. Fortunately no one was seriously hurt but the car was badly damaged, three wheels, the top and the windshield being broken.

This summer some of our aesthetically inclined citizens organized themselves into a Horticultural Society for the purpose of making our town a more beautiful and a more pleasing place in which to live. By teaching, by example and by the donation of prizes by one of our public-spirited citizens much was accomplished along this line, and to give an added stimulus to the movement an expert on the beautification of our homes was brought by the Association to our town and spoke to a very generously filled house and all went away filled with aesthetic enthusiasm. The very next day cows, calves and sheep, driven from their starved pasture fields, wandered at their own sweet will through backyards and over front lawns rendered soft by the recent rains. They drove their divided hoofs through the soft grass into the easily yielding soil leaving it in a condition reminding me of the appearance of cakes after my mother had indented them with that very useful table utensil a fork. A rather cruel irony of this mauling expedition was seen in the fact that one of the members of the Association engaged two men to rake the leaves off his lawn thus bringing the green tender grass into new when three cows marched in and took

possession of the grounds. A day or two afterwards while working outside, the ears were assailed by the joyful shouts of the chase reminding us of Sir Walter Scott's description of that sport in Scotland and on looking up we beheld two beautiful Aerdales in close pursuit of a cow. Although we have a by-law forbidding the running of these animals at large yet every fall the people of this town are subjected to this nuisance. Owners of domestic animals when the pasture fields are too bare for their subsistence should come them up and not compel otherwise respectable citizens from exercising that part of the English vocabulary unknown to the clergy.

Queen Alexandra celebrated her 79th birthday on Saturday, December 1st. She is in excellent health.

Peterboro's fire loss for the month of November was \$10. The number of alarms responded to was 24.

To be able to go to her own back yard in Belleville and pick a bouquet of floss on December 1st was the unique experience of a local woman. The flowers are equally as pretty and fresh looking as they would be during their regular season.

The oldest English name for Christmas is Modra Nihit, or Mother's Night. In the early days, when our Saxon forefathers had just settled down in the country that was to be England, the day of December 25th was given up to games and feasting, but the night was dedicated to the special honor of mothers. They occupied the seats of honor, and everyone brought them gifts. Sons and daughters who had gone out into the world strove to be at home on that one night in the year. A little later the name Yule was given to Christmas, and the rejoicings of the day were prolonged into the night, when men sang and told stories sitting round the cheerful blaze of the Yule log. The old customs of Mothers' Night gradually died out, though they still survive in a few remote parts of Britain. Its place has been taken to some extent by Mothering Sunday in the North of England. On that day every one who can do so still makes a pilgrimage homewards, and the mother receives the homage of her family.

Births — In Madoc Township, on Thursday, December 6th, 1923, to Mr. and Mrs. Albert Bailey, a son.

In Madoc Village, on Sunday, December 2nd, 1923, to Mr. and Mrs. Bateman Tanner, a daughter, Aileen Bernice.

24 YEARS AGO December 8, 1949

Mr. G. Murray, local Dominion Bank manager, is receiving contributions for the Sick Children's Hospital Building Fund. There won't be any canvass in Madoc and anyone wishing to make a donation to

this worthy cause should contact Mr. Murray, who will issue them an official receipt.

Former Madoc boy, Murray Irwin, young druggist of Peterboro, was elected to the Board of Education in that city at last Monday's election. He is believed to be the youngest candidate to run for public office in the city's history.

The members of the local Kiwanis Club were privileged last Friday to listen to one of the finest addresses given locally since the Club was organized about a year ago.

The speaker was Mr. D. Baxter Lawley, of Toronto, National Consultant for the Canadian National Institute for the Blind. Mr. Lawley, a former mining engineer, lost his eye sight several years ago in a mine explosion in British Columbia. In his introductory remarks he mentioned that Madoc, Flinton, etc., were not given their names by accident, but were Welsh names and were named on account of the mineral deposits in the district.

Mr. Lawley, following his accident, studied in England and later was sent to Canada, when Canada was in need of highly specialized personnel. He talked for a brief time on the building program for the Blind that was going on in Canada, whereby all of the larger centres across Canada such as Peterboro and Kingston would have centres with living accommodation, class rooms and recreation space. Today Canada is not importing this highly specialized personnel, but other countries are seeking Canada's aid and as a result Mr. and Mrs. Lawley and his Chief have spent some time in the West Indies & the Caribbean Islands and it was on his work in these places that he based his interesting and informative address. On his arrival in the south he found that the Blind were living under deplorable conditions. He organized those trying to help themselves under one head, conducted two money raising campaigns and with Government assistance, an old building was renovated and a new school built. Today the picture is entirely changed. The children, as well as adults, are housed in suitable living quarters, and are being taught Braille and a useful occupation. A Canadian educated girl resident, as well as teaching the children, teaches blind women in their homes. The Blind does not want pity, but sympathy and help to learn to help themselves. Wesley Hulin introduced the speaker and Kiwanis' appreciation was extended by John Bristol. Mr. Lawley was accompanied on the trip to Madoc by Mrs. Lawley, who was presented with a box of candies from the club.

Births — In Belleville General Hospital on November 27th, 1949, to Mr. and Mrs. Francis Barry, Queensboro, twin boys.

At Mrs. Keller's Nursing Home, Madoc, on Friday, December 2nd, 1949, to Mr.

and Mrs. Daniel O'Connell, a son.

Mr. and Mrs. Charles Storey (nee Lillian Connor), wish to announce the birth of their daughter, Lorraine Helen Heather, at Niagara Falls General Hospital, on Monday, December 5, 1949, sister for Lida and Wayne.

Weddings — A quiet wedding was performed at the home of Rev. Madden, of Caniffon, on Saturday, December 3rd, when he united in marriage, Daisy Louise Reynolds, only daughter of Mr. and Mrs. Thomas Reynolds, of Madoc, to Glen Herbert Hancock, son of C. J. Hancock, of Belleville.

A very pretty wedding was solemnized at St. Henry's Church, at Queensboro, on Tuesday, November 15th, at 9 a.m., when Lena Ellen, daughter of Mr. and Mrs. Nelson Lajoie, of Actinolite, was united in marriage to Phil Moore, son of Mr. and Mrs. Albert Moore, Sulphide. The ceremony was performed by the Rev. Father Hyland, of Madoc, with John Barry as acolyte. Mrs. Frank Berry played the wedding music.

15 YEARS AGO December 18, 1958

First co-operative farmer-operated hog assembly point in Ontario, a new hog collection point was officially opened at Madoc, Monday morning. A good crowd of Madoc district farmers attended the opening and watched hogs arrive from as far as 25 miles away. Official opening ceremonies were in charge of Roy Sills, of Holloway, president of the Hastings County Hog Producers' Association, sponsors of the hog shipping point. Other speakers at the opening were Clare Curtin, provincial director at large for the Ontario Hog Producers; Irwin McCoy of Marmora, one of the first executive officers of the Hastings County Hog Producers; and Wilfrid Forestell, of Madoc. The Madoc shipping point will operate each Monday, and will receive hogs from eight a.m. until two p.m. Hogs are checked, weighed, then placed in a covered collection yard from where they are picked up by transport and taken to packing plants. President Sills noted that the Madoc shipping point was a purely co-operative effort on the part of Hastings County hog producers. All producers in the county will be invited to ship hogs through the shipping point, but he noted this was not compulsory. When hogs are all in the Hog Producers' Marketing Board is advised of the number, which organization sells the hogs and advises which packing plant to transport them to. Hogs are checked weighed in at the shipping point and when sold are paid for on a dressed weight price at the packing plant. Check weighing gives farmers an idea of what hogs are worth before arrival at the packing plant. Mr. Sills noted. He noted that when hogs are

picked up by drovers, no weights are taken until the hog is processed at the packing plant. The Madoc shipping centre situated on the Ernest Lough premises just north of Madoc, will have a receiving capacity for about 200 hogs.

R. J. Burnside has been appointed Director of Operation and Maintenance by The St. Lawrence Seaway Authority, it was announced by B. J. Roberts, C.B.E., President of the authority, on December 11th. Mr. Burnside had been, since 1955, Director of Canal Services of the Department of Transport. Born at Madoc in 1903, Mr. Burnside graduated from the University of Toronto in 1927 with the degree of Bachelor of Applied Science in Civil Engineering. He was employed with a private firm as consultant resident engineer until 1932, when he joined the Department of Highways of Hastings County as resident engineer. He worked briefly for the Department of Highways of the Province of Ontario and in 1935 was appointed assistant engineer on the Trent Canal. Mr. Burnside remained on the staff of the Trent Canal in various positions until he joined the staff of the Welland Canals in 1949 as engineer in charge of design and hydraulics. He became assistant superintending engineer of the Welland Canals and in 1954 was appointed engineer in charge of operation, maintenance and improvements in the Canal Services Branch. In June 1955, he was appointed Director, Canal Services. Mr. Burnside is a member of the Association of Professional Engineers of the Province of

Ontario. His wife is the former Ann Lawrie, of Almonte, Ont. They have a son, Thomas W., attending Fisher Park High School, Ottawa, and two daughters, one at Valleyfield, Que., and the other one at Picton, Ontario.

Citizens of Madoc will hear a long and pronounced toll from the bell in the tower at the old Public School, probably some time tomorrow. This will mark the closing of the building as a seat of public school learning, which has served the people of this community for the past 80 years. The new school is now ready for occupancy and when school reopens after the holidays pupils will attend classes in the new building. It is the intention of the Board to preserve the bell and at a later date have it remounted on the new school.

Big kicks little bucks.

Come in and see the Elan 74. It's the compact-sized, compact-priced snowmobile from Ski-Doo that delivers full-sized fun. The lightweight Elan is a foot shorter than other snowmobiles, but its track is full-length. With a ground pressure of less than a third of a pound per square inch, Elan goes anywhere the big machines go. For a lot less money. Elan for 74 features: a 3-layer foam sandwich seat; wide 25 1/2-inch ski stance; choice of single cylinder (with optional electric start) or twin cylinder engines; and a full one-year warranty.

ELAN by ski-doo.

PARADE

(Continued from Page 1)

churned out dittos of parade
information; the C.H.S.S.
Year-3 marketing classes for
making signs for store win-
dows and decorating the Speed
Queen window; Calvin McCoy,
Ross Clark, and Dick Jones for
their trucks and drivers for
many of the floats; the Senior
Citizens who packed hundreds
of bags of candy for the
children; Lindsay Empey and
his crew who decorated the
streets with lights; the citizens
of Madoc who allowed floats to
be parked all over their streets
with nary a complaint; all the
people who participated in the
parade to make the 1973 Santa
Claus Parade the biggest in
history; and Jim Hanna for his
ho! ho! ho!

Thank you, thank you, thank
you. Merry Christmas and a
Happy New Year from the
Madoc Chamber of Com-
merce.

STUDENTS

(Continued from Page 1)

Mathematics, Geography and
commercial classes.
The ushers were most
helpful and gracious, and the
Tweed Club was immensely
impressed. While in the
relaxing mood, several pic-
tures were taken by Mr. Bob
Thom of the Seniors in
different locations in the
school while on tour.

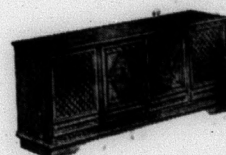

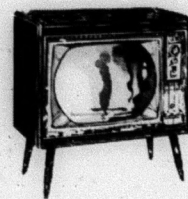

The Club members were
invited to speak to the
students, and since many from
Tweed were in the classrooms
and halls, many a wee chat

were enjoyed with the stu-
dents whom they knew.

The guests were then
escorted to the cafeteria,
where Mrs. Kincaid and her
helpers served a delicious
lunch consisting of a variety of
dainty sandwiches, pickles,
fancy desserts, squares and
hot beverages.

The bus trip, entertainment,
tour and lunch were all
provided at no cost to the
Tweed Seniors, who had such
a pleasant time. They wish to
thank the staff and students
sincerely for the invitation and
the visit as a whole.

FOR OBSERVANCE OF THE
CHRISTMAS SEASON

There's nothing like a bag of candy to bring looks of expectation
into the eyes of children.

If it hadn't been for Terry Pigden and Grant Ketcheson
commentating the parade, much of the parade would have been
missed.

Members of Tweed & District Senior Citizens Club No. 399 are:
left to right, Mrs. Albert McTaggart, Fred Kleinsteuber, George
Hawley, Mrs. George Hawley and Vice-President, Albert
McTaggart. At the left, but almost out of view, is Mrs. Bernice
Reid. The members are shown during their day at C.H.S.S.

Grade eight students from Tweed visited C.H.S.S. in Madoc
recently through the Orientation Program to view, first hand, the
Grade 9 students in class. Above, Mrs. Jean Graham, [centre]
Guidance Counsellor, discusses possible choices of courses for
September 1974 entry with students. From left, Susan Mills,
Stephen Maines, David LaVallier and Charlene Masters.

The new 1974 Alouette Super Brute.

Never before has so much worked so well.

In designing the Super Brute,
our idea was simply to make a
machine that would perform better;
and that would go on performing
better, longer.

So we put in power. A front-
mounted Sachs engine. A new
transmission, with heavy-duty
chain and a double-sprocket free-
wheeling track drive, for minimum
power loss.

We built in lightness, with an all-
aluminum chassis with race-proven
front-end structure.
Balance, with new
wide-stance
Ski-Sorber™
suspension.

Comfort, with a slide suspension
adjustable for your weight and
snow conditions, and a posture-
contoured foam seat.

We devised a track tunnel that's
self-clearing, not clogging.
We added a completely new
concept in the control module.
It includes a headlight that swivels
to show you where you're going,
on a curve. And is integral with a
high-rise, wrap-around windshield
that doesn't leave your head or
hands out in the cold.

And looked so good.

Ask engineers for performance,
reliability, accessibility, long life,
etcetera, and you don't necessarily
expect the *greatest looking machine*
you ever saw. But that's just what
we got in the Super Brute.

Get around to your Alouette
dealer soon, and see if you don't
agree. But be sure to take a good
look inside, as well as outside.
Then you'll see why we're able to
say "Alouette delivers".

Madoc Baptist Church Women's Mission Circle

The November meeting of the Women's Mission Circle was held at the home of Mrs. George Warbrick on Monday, November 26th at 8:00 p.m. with Mrs. Warbrick presiding. The hymn, "Bringing in the Sheaves" was sung. Mrs. Warbrick read from Colossians and led in prayer for missionaries.

The minutes of the last meeting were read. Roll Call was answered by repeating a verse containing the word "Gospel". Offering was taken. Mrs. Gates read a chapter from the Study Book, "Fire on the Mountains". Mrs. Wood, group leader then conducted the meeting. A hymn, "Gospel of God" was sung. The theme was "The gospel which means Good News." She then presented different aspects of Divine Revelation. (1) Gospel of Grace of God, essential to

salvation, (2) Gospel of god, Roman 1, 1, (3) Gospel of Christ flows from His sacrifice on the cross, (4) Gospel of the cross, (5) Gospel of Peace: Makes inward peace possible, Ephesians, (6) Gospel of Kingdom, Matthew 4:23, (7) Everlasting Gospel.

Mrs. Wood then read excerpts from a book, "Gospel we Preach", by Oswald Smith. "The man in the Well" depicting a man's effort to find salvation by human methods. Only Christ is the answer. He said, "I am the way, the truth and the life, no man cometh to the Father except by me. Christianity is not a religion. It is a life as the result of the new birth. A poem was read, "Let us sing of Jesus' love."

Mrs. Demille closed the meeting with prayer and gave thanks for the refreshments. A social time was enjoyed.

"THE HASTI-AGRI-GRAM"

Zero In
(by W. D. Tipper)

In this particular edition, the last one for 1973, there are several things that we want to bring to your attention. Wayne Martin has two items. One deals with Canfarm records, the other deals with 'On Using Your Accountant' and the implications of new legislation in transferring of farms. Just to give you something to think about at the end of the year, we are including some information on the metric system. It may be closer to being used than we think.

Tax Rebate ????

The official title is 1973 Farm Tax Reduction Program. It provides 50% farm property tax rebate or about the amount you would pay in property taxation on your farm land.

You should have received a leaflet outlining it. It tells you that to claim it you must (a) reside in Ontario (b) Own a property assessed as a farm (c) have a farm operation that produces \$2000 worth of products (d) have paid at least 50% of your 1973 municipal taxes.

To Claim the Rebate — you

SNOWMOBILING FOR FUN & SAFETY

When the snow finally comes to stay, it's none too soon for snowmobilers. Curriers may argue the point, but nothing has put more fun into our Canadian winter than snowmobiling [Hockey Night in Canada notwithstanding!]

There are hazards involved however, so we've put together some tips that will make snowmobiling fun and safe for the whole family.

1. Rough terrain and uneven snow surfaces can result in overturned machines — reduce speed.
2. Below freezing temperatures are necessary for the best snowmobiling.
3. Ice travel is extremely hazardous and should not be attempted unless accompanied by other snowmobilers.
4. Reduce speed in wooded areas and watch for snow-covered stumps, low hanging branches and fallen trees.
5. Use only public through-fares designated as snowmobile routes and exercise extreme caution. The greatest number of snowmobile fatalities have occurred through collision with motor vehicles.
6. Reduce speed at night; headlights are inadequate for the speed of which machines are capable.
7. Proper clothing, available at your Co-op, is most important. It should be warm, yet light.
8. Do not wear loose clothing or scarves.
9. Keep clothing dry and don't become over heated. Loosen clothing at throat to allow warm air to escape as necessary.
10. Watch for frostbite. It appears as white spots most frequently on ears, nose and cheeks. Minor bites can be thawed with heat from your hand or warm compress. Do Not Rub with Snow or Massage at this will damage skin tissue.
11. Carry on the machine emergency equipment such as first aid kit, matches, flashlights etc. . . all of which can be purchased at your Co-op.
12. In case of an emergency the first important rule is Don't Panic! This is vital to survival.
13. Conserve your energy and take careful stock of the situation.
14. Light a fire for warmth and to attract attention.
15. If a shelter is needed, make a wind-break from snow, poles, evergreen boughs or whatever might be available.
16. Distress signal — A hundred foot circle tramped into the snow with paths radiating from centre like spokes in a wheel. Evergreen boughs placed upright are helpful. They cast shadows on a sunny day.

Madoc Co-operative Association

will receive an application form. If you are eligible, you apply for it. You must certify that your application is correct. The applications come directly to you from the Subsidy Branch, Ministry of Treasury, Economics and Intergovernmental Affairs.

Warning — If your property that you claim as a farm is sold for reasons other than farming before 1983, then the rebate must be repaid plus interest at 8% per annum by the person owning the property at the time it is reassessed for purposes other than farming. Such a case would occur where a farm were sold for a subdivision. The minute the subdivision started it would be reassessed. The owner at that time would have to repay the rebate with interest.

Records For The Farm Business Man

(by T. Wayne Martin)

In talking to many farm families we find that the majority of farm business men have a farm record system, first of all for income tax purposes and secondly for farm management purposes. By law, certain records must be maintained for income tax. With a proper record system both income tax and farm management information should be available.

Canfarm is one of several methods of maintaining an up-to-date farm record system. Canfarm is a computerized record program where entries are generally submitted on a monthly basis and an analysis and summary is returned for the month and the year to date. There is nothing magical about a computerized farm record program. The information that comes back is only as good as the information that is submitted. During 1973, the Hastings Farm Service Club has provided a Canfarm program for the county with Mrs. Marjorie Donnan as the Canfarm technician.

There are various recording programs available to the farm business man under Mrs. Donnan's direction. These range from training and supervising the farm operator to record his own transactions to actually recording the farm transactions himself.

A meeting will be held in Hastings in December to discuss the 1974 Canfarm program. If you would like more information, please contact Ontario Ministry of Agriculture and Food at 395-3393 by December 12, 1973, and you will be notified of the date of this information meeting. If you are wondering about this program or even just interested in further information call now and leave your name.

The Metric system For Farmers

We have all heard of the metric system as a unit of measurement in size, volume and weight. We may not be aware, it is already used in schools and sometime in the future Canada will likely adopt it. There are 131 countries in the world on the metric system; which deals in multiples of 10. What's a hectare? It's a land measurement unit in the metric system.

Income Tax Problems Now And In The Future

(by T. Wayne Martin)

During the past few years we have stressed the need for well qualified people to prepare farm income tax returns and provide tax management advice. Most farm people refer to the person who completes their income tax return as the

"Accountant". Unfortunately very few farm business men have a chartered accountant prepare their income tax returns. The more usual situation is a person who calls around at the farm and in one to two hours summarizes figures provided by the farmer and then these are transferred usually at a central office to an income tax return. With our complex business operations and the ever changing tax regulations I personally do not feel that a visit of one or two hours can ever be sufficient for the preparation of an income tax return and the provision of tax management advice.

In addition, usually a different person appears each year and on top of that the business man is asked to pay his fee anywhere from two to five years in advance. Time is running out for 1973, but if you have been thinking about making any changes you should be contacting someone immediately. There are chartered accountants in this area

as well as some other qualified people. Their services should be available for only for the preparation of the income tax return, but also for tax management advice. As an example, within the last few years legislation has been

introduced that would allow a farmer to turn over to his children, free of gift tax, an interest in the family farm worth up to \$50,000. Other legislation also introduced would lift the burden of succession duties by permit-

ting forgiveness of duty on farm assets over a 25 year period. Does the person preparing your return ever mention similar items? At this time, in 1973, every farm business man should ask himself several questions: 1. Am I satisfied with the person or persons preparing my income tax return? 2. Am I asked to prepay a service several years in advance? 3. Do I see the person or a representative more than once a year other than for collection

of fees? 4. Do I know who will be preparing my return for 1974?

If you have doubts about any of the answers to the above questions now is the time to look for someone else, not next April.

SENIOR CITIZENS REPORT

by Mary Ann Holmes

Madoc & District Senior Citizens Club No. 473 held their annual Christmas Party at the United Church parlors on Wednesday, Dec. 12th. The President, Mrs. Broadworth welcomed our members with a special welcome to guests Captain Thompson and Father Murphy, Rev. and Mrs. Dillabough, Rev. and Mrs. Heard and Brian, Rev. Violet Mallory, and Mrs. Rod Murray and Mrs. M. McMurray of Gunter. The Lords Prayer was repeated in unison and Mrs. Broadworth read a Christmas poem. The minutes of the previous meeting were read by Secretary Mrs. Johns.

President, Mrs. Broadworth was presented with a gift for which she thanked the club warmly. Mrs. Mary Ann Holmes, retiring press secretary was also presented with a gift in appreciation for her work through the years. She also thanked her friends warmly. The meeting was then given over to Mrs. G. Moorcroft, program convener. She opened this portion of the meeting with a lively sing song of carols with Mrs. Reid at the piano. Christmas readings were given by Mrs. Bateman and Mrs. Declair. The ladies from Gunter sang very sweetly for everyone's enjoyment and a piano solo by Mrs. Elizabeth

Empey was also very much enjoyed. The gentlemen of the clergy each spoke briefly and Captain Thompson presented the Club with the gift of a cheque from the Anglican Ladies and also one from the Canadian Legion, Madoc. A certificate of merit was also presented to Mr. Alvin Devolin by Captain Thompson from the Royal Canadian Legion of Madoc for his outstanding contribution selling poppies during the recent poppy drive. Alvin was also presented with a gift from the

OUR TRIP TO ST. JEROME

(By Kelly Taylor, Sheila Nolan, Brenda Stire, Carol Whiteman, Kathy Graham and Dana Winterburn)

Thursday morning was spent in Laurentia school. We played many different games, and sang a lot of songs in French. It was a regular

French class only a lot more fun. The morning passed swiftly and soon it was lunch time. At 12:30 a bus picked us and our friends up and we went to the St. Jerome chocolate factory. Mr. Murphy (our principal) met us and our friends at the school. We were

very delighted to see a familiar face again. He followed us to the factory in a car. At the factory we had to wear paper hats to cover our hair so it wouldn't get in the chocolate.

When we got in we first went into the lab where they test the formulas for the chocolate. The main part was being renewed, so that took care of all the chocolate sampling, but we did taste some chocolate chips. They also made margarine there, everybody got some margarine to take home but the Madoc people didn't take any because it would melt on the train. The tour was over so we went back to the school, and home.

Friday we brought our suitcases to school. When the bell rang we lined up, and as soon as we were quiet we went in, line by line (this was done because the halls were so narrow).

When we got to our classroom we gave our hosts and hostesses a year book in our appreciation. Afterwards we learned a popular French song called "Au Chant de l'Alouette". At 10:00 we went to a shopping plaza. Much like the mall in Belleville. There we spent the rest of our money! And we bought a present for Mme. Bolduc in our appreciation of her time and patience.

After lunch the girls from St. Jerome started to cry. They didn't want us to leave, but Mrs. Hailstone comforted them. It was a long wait at the station and finally we waved good-bye to Miss Bolduc.

On the train we spoke mostly French to each other and we were glad to see our parents waiting for us at the Belleville station. The most enjoyable trip had come to an end.

TO OUR READERS

This is the last issue that will be published for the year. There will be no paper next week, as the Review office will be closed in observance of the holiday season.

Our next issue will be published on Thursday, January 3rd, 1974.

May we extend to all, best wishes for a safe happy holiday.

NO L.I.P. GRANT FOR MADOC

Although the recent application of the Madoc and District Chamber of Commerce for a LIP grant was turned down, a total of seven in the County have been approved, it was announced on Friday by Manpower and Immigration Minister, Robert Andras.

Priorities, including Indians and education, and the fact that there was only \$58,000 allotted for the whole riding, combined to lead to the disapproval of the local application.

The approved projects will create a total of 29 jobs in Hastings riding.

The seven projects announced Friday are part of 234 projects throughout Canada creating a total of 1,570 jobs that have been announced. This involves a federal contribution of \$3,674,000.

Altogether 1,374 LIP projects have been approved by Ottawa for 1973-74. This represents a federal contribution of \$27,192,693 and creates

a total of 10,700 jobs. Other projects to be approved will be announced later.

The establishment of a Day Care Centre in Tweed is the project approved for that community. This venture will employ three people for a total of 156 man-weeks of employment.

The aim is to provide a day care centre for Tweed and the surrounding rural community while freeing parents, especially welfare recipients, to seek employment.

Coe Hill has undertaken an ambitious project called Concerned Citizens Group. This will involve three people working for 364 man-weeks.

Aim of the project is to service the needs of as much of Coe Hill and area as possible. This will be met by remedial work with school children and a craft program for school children, teenagers and adults.

There will also be a part-time nursery school set up, senior citizens' recreation,

the repairing and remodelling of local churches, the publishing of a community newspaper, music, photography and a recreation program available to the entire community.

Another facet of the program for Coe Hill is the remodelling of an old school loft which will be turned into a shop.

In Bancroft, the LIP project approved is called Community Opportunity to Participate in Education (COPE).

This particular project will involve 243 man-weeks of employment by three people.

Its aims have been set as an attempt to involve local citizens in providing tutoring for slow learners as well as providing counselling in music and drama designed to create

student creativity.

Other objectives are: maintenance of equipment and materials, and learning resources to be set up and made available to schools and communities.

Three projects were approved for Belleville. They are: The setting up of the Hastings County Museum exhibition. This project will create three jobs and involve 168 man-weeks of employment.

The objective is to establish display facilities throughout Hastings County to exhibit on a revolving basis projects of an educational and cultural value.

The Queen Victoria Community Services will employ three, for a total of 88 man-weeks.

This project will hire people to act for existing committees in carrying out established and urgent needs that current organizations are unable to manage with volunteers only.

It aims to co-ordinate for the community those projects offered by the Belleville recreation department and private and public organizations, schools and the community.

This project has three main categories: sports and recreation, arts, and culture.

The program is aimed toward all age groups in many areas of interest. Activities, although centred around Queen Victoria School, are open to anyone in the community.

The third project approved for Belleville is Project Help. This will create 442 man-weeks of employment for three people.

The venture aims to provide services for disadvantaged children within the present school system by instigating individual tutoring and counselling as well as by extracurricular activities, for example, theatre arts craft.

In Deseronto, the LIP approved project is the completion of a community centre started with a LIP grant for 1971-72.

This project will employ 11 people for a total of 97 man-weeks of employment. It aims to complete the inside of the community centre.

Grade 8 Orientation Program At Centre Hastings Secondary School

During the past week, the grade eight students of Marmora Senior Public School have been visiting Centre Hastings Secondary School to find out for themselves what high school is all about. Each student, with the help of the Guidance Counsellor, Mr. D. Weir, selected eight courses that he or she was interested in. These were worked into a individual time-table by the Guidance Counsellors so that everyone could experience a typical high school program for one day.

"BUFFALO KEL" KINCAID TAKES UP MULTI-TON HOBBY

(by Gene McGuckin)

Local history books in the next century may remember him as "Buffalo Kel", the man who started the great Madoc buffalo herd.

At present, however, Kel Kincaid is planning to raise only a few of the massive beasts which once roamed the prairies of this continent in the millions. He has owned a pair of buffalo, cow and bull yearlings, since last June, but he is still better known in these parts as a supermanager and president of the Hastings Progressive Conservative Riding Association.

Mr. Kincaid and his wife, Floss, first became interested in raising buffalo a year ago October while holidaying at Banff National Park on the Alberta-British Columbia border.

"We were on a bus going through the park," he recalls, "and when we saw the buffalo we were fascinated. Everyone in the bus was interested. They all rushed over to the side of the bus where the buffalo were, and the bus actually tilted to that side."

When they returned from the trip, Mr. Kincaid began searching for information on how to acquire a few of the majestic mammals. His search was fruitless for months until he enlisted the help of Hastings MP Jack Ellis.

In April, Mr. Ellis forwarded material from the federal Ministry of Indian Affairs and Northern Development. From this he learned the government auctions buffalos to the public in blocks of 25 animals costing roughly \$400 apiece. For Mr. Kincaid this would mean an investment of \$10,000 plus transportation costs. He didn't want to go that big.

But a sentence in the ministry letter to Mr. Ellis suggested a possible alternative: "Should your constituent be interested in buying fewer

than 25 animals, he might be able to obtain them from one or more of the breeders listed on the attached sheet."

On that sheet was the name of Dr. W. W. Belch of Peterborough. "There it was," said Mr. Kincaid, "only 50 miles away."

But his first contact with Dr. Belch was disappointing; it looked like another dead end. "Dr. Belch wasn't interested in selling any of his buffalos," said Mr. Kincaid. "He wanted to build up his own herd."

By this time, though, Mr. Kincaid was determined to have a hand in raising at least a few of the once-numerous animals who had been driven to near extinction by our ancestors. He had learned that buffalos numbered over 100 million on this continent just a century ago and had been exterminated at such an astounding rate that in 1900 only six wild buffalos could be found in the United States!

"I kept on writing to Dr. Belch and eventually he came up here to see me. When he saw the place I was planning to keep them and how I was planning to care for them, he changed his mind. I guess he wanted to be sure we weren't just going to have a big party with them."

Mr. Kincaid is not interested in raising buffalo for food. "I'd never raise them just for the meat."

On his membership certificate of the National Buffalo Association, which he joined after making the purchase from Dr. Belch, is inscribed: "Kel Kincaid is dedicated to the promotion and propagation of the great American buffalo."

Home for the Kincaid buffalos is south of Madoc. They live on a tract just over two acres surrounded by 1,000 linear feet of fencing. They have access to a small shed for hay feed. Mr. Kincaid plans to

fence another area for them this summer so he can rotate their forage areas, allowing one to recuperate while the other is in use.

The beasts, which will be two years old next March now run about 800-900 lbs, and together they eat about a bale of hay per day. "That's a feed cost of about 20 cents per animal each day," Mr. Kincaid estimated. Shelter is unnecessary, since the animals can take care of themselves in any weather even down to temperatures of -40 degrees.

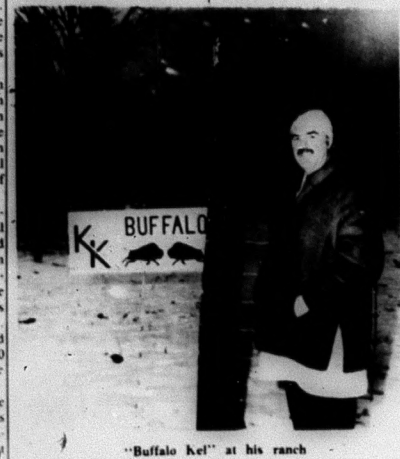

Buffalos live about 30 years and do not reach maturity until they are about eight years old.

"Right now the female is bigger than the male and she bosses him around," explained Mr. Kincaid. "But they'll get into their first rutting season next July or August, and then the male will take over." Gestation period for the buffalo is about nine months, so Mr. Kincaid may have the first addition to his herd in the Summer of 1975.

At maturity the male should weigh over a ton, while the female weighs around 1,400 lbs.

Mr. Kincaid gets a good deal of fun out of his new "hobby." Buffalos are unpredictable, he said, and slow careful movement is required in their presence. But when the pair are in a playful mood, "they frisk around like big kittens," he said. (Some kittens.)

Now a confirmed advocate of buffalo raising, Mr. Kincaid has volunteered to help anyone else interested in getting started in the same undertaking. "I've got a former friend down in Huntington Township that I've gotten interested in the idea," he reported. "But he hasn't told his wife yet."

GHOSTS OF
CHRISTMAS PAST

When there are no kids around, Christmas loses a lot of its excitement. At least that's the way it seems around our house this year.

We've always had a family Christmas, most often at the farm of the grandparents. Those were great old traditional festivities.

We drove to the farm, left the car at the highway and staggered through the snow up the lane to the house, loaded with gifts. The kids, wrapped to the noses, were fairly hysterical by the time we entered the big, warm farm kitchen.

There were assailed by the enveloping scents of roasting turkey and pine needles, a wonderful combination.

Then came the opening of presents, with everybody protesting, "Oh, you shouldn't have..." Except the kids. They would rip off the wrappings, scarcely glance at the contents and start looking under the tree for another package with their name on it.

A lot of love and thought went into the gifts, and sometimes there were tears of pleasure.

The women talked a blue streak and caromed off each other as they charged around the kitchen. The men sat around drooling. And the children were the centre of attention, funny and delightful, and they loved it.

Then came the great orgy at the table, with everyone from the littles to Granddad tucking into the turkey and trimmings until their eyes were bulging.

This was sort of the climax of the holiday, and like every climax, it had its anti-climax: great stacks of dishes to be washed; distended bellies; exhausted kids. In its way, it was a pretty pagan celebration.

But by evening, everything was cleared up, digestions would begin operating again, and there'd be carols and quiet talk and a general feeling of warmth and love and security.

This was the culmination of several weeks of Christmas pageants and Christmas parties at the Legion Hall for the kids, and writing cards to old friends, and scrambling around for gifts, and putting up the thrice-blasted tree and pretending there weren't going to be a lot of presents this year.

They were good times, and I miss them, but I don't know whether I could stand the pace any more. I was working about twelve hours a day, and there seemed to be a festivity or something every night.

There were a couple of Christmases that are funny in retrospect, though at the time there was a marked lack of Christian spirit.

One was the time we bought the television set for

the grandparents. It was in the early days of TV, and we all chipped in to buy the set. None of us could afford one for ourselves. There was tremendous secrecy. It was to be the surprise of the century. My brother-in-law and I dragged the great brute of a box up the lane to the house, and wrestled it into the farmhouse. It was to be opened under the tree.

Kim was about three, and full of that wild excitement that invests kids at Christmas. We had barely deposited the big box in the house when she piped, "Hope you like the tee-bee, Granny." Some secret. Some surprise. And there was the Christmas we held at our place. The grandparents and the aunts and other assorted bodies were invited. My wife had spent two hours the night before scrubbing and waxing the kitchen floor. I had spent three hours preparing the turkey. We were going to show them that we could entertain in style.

All was in readiness. The Old Battleaxe told me to take the turkey out of the oven. I did, skidded on the wax, and roasting pan, turkey and all went flying through the air. Wall-to-wall grease. Turkey basted in floor-wax. It was one of the less-memorable moments in a happy marriage.

And I remember Christmases a long time ago, in the Depression, when a child's one and only present might be a suit of long underwear, or a handknit sweater. Depression was the Depression.

Of recent years, our kids have come straggling in from university, sometimes with a friend, for Christmas. And we've had music and good food, and fun.

Last year we were alone. If I remember correctly, we dined on frozen meat pies. I had bought the usual two trees. I got the little one up. The big spruce was leaned in a corner, and I threw it out on Boxing Day.

This year, we'll be alone again. But things are going to be different.

Son Hugh won't be home. He's off in deepest Quebec. But he's already had his present. Daughter Kim won't be home, because I don't particularly want my grandchild born on a bus.

So, we're thinking of closing up the joint and going to the city. My wife can supervise the layette. I can write cheques. We'll stay in a hotel, where somebody else had to grapple with the tree.

And, if things turn out just right, we might get the finest Christmas present we've ever received. A bouncing baby grandchild.

One Year's Work... L.I.P. Grant Book Completed

(by Pat LeSage)
(Tweed, Ontario)
To any reader of the MADOC REVIEW who is interested in keeping the past alive:
Wherever there are older

people, there are invaluable stories of the past. From January '73 to now — December '73, 61 past and present residents of Tweed and Hungerford district were involved in a Local Initiative

Program, in making a book of bygone days. Margaret Rashotte, Baden Vance, and myself interviewed, tape-recorded, and typed the stories told by our older people.

How did Madoc get involved? There is a small-business man in your town who liked the challenge of tackling a big-business enterprise. Maurice Goulah of the Madoc Review was enthusiastic about our project when we first went to him. He thought making a book of a time gone-by, told first-hand by those who experienced the early 1900's, the Depression, the First World War and other past events, was a good idea. From that point on, our eyes were constantly being opened to the many-faceted process involved in printing a book. For laymen, being completely green as to what was involved in making a book, it was a fascinating experience.

It took many long months to get the copy proof-read and ready for printing. Each time there were corrections, the original sheet, which eventually was to be photographed and made into a negative for reproducing, had to be changed. Finally in November the next step was to photograph all the original sheets. Eric Biesthorst spent many long painstaking hours "opaquing" the negatives. I now understand that term to mean blocking out any unnecessary marks on a negative by means of a heavy paint. Four of these negatives were put together and burnt in a "plate-making" machine (layman's terms again) to form four pages on one side of a large zinc plate.

Nothing appeared on the plate as it came out of the machine, but I had confidence that some kind of magic would be performed. And it was. Eric poured a red solution of developer over the plates, rubbed them with a cloth - and there were the words and pictures! (Speaking of pictures, I forgot to mention that each person in the book was photographed and the process by which these photographs were transferred to the printed page was a story in itself). There were also reproduced photos of places of interest in the book.

Each plate had to be burnt -

twice. We ended up with 24 plates - eight pages each, front and back, to make a 192-page book. A far cry from the 50 page booklet we were allotted when we got the grant back in January of '73! The next step was to put the plates in the press.

It was a great day when we heard the click-clack of the press and saw the paper with words on it finally roll out. Half of the book was put on the floor in 12 groups of 1,000 sheets each. Each large sheet had to be "backed up" (meaning that each sheet was turned over and words were printed on the back).

We then took these sheets to Belleville to Warwick & Weeks to get our paper folded into the book size - 6" by 9". It took the folding machine 3 1/2 hours to fold 12,000 sheets of 12" by 18" paper, twice. The next day, Eric had the other half of the book ready to be folded, so by Saturday, December 8th, our book was ready to be inserted. We had an inexperienced, but very eager, group of six people placing one

folded eight page section into another one. This process took the better part of three days. At this point we had 24 boxes with 1,000 eight-page sections in each box - with a few extra. (We found that in printing you always make some extra in case of error by man or machine). Maracle Press by Oshawa was in a Christmas rush by this time, but by some miracle of Maracle they got our book, "Them Were The Days", sewn and bound, ready for pick-up on Friday, December 14th.

Now they are on sale at the Madoc Review at what we feel is a most reasonable price, \$3.00. It is 192 pages of stories told by your neighbours about a time gone-by. We're proud of it because it was done professionally by a small business. It shows that there are times when one can be independent, and still produce something worthwhile. Speaking for myself, I would say that making this book was more than a pleasure, it was a once-in-a-lifetime experience.

ST. PETER'S W.M.S.

The Christmas meeting of the Missionary Society was held at the home of Mrs. Warren Hill. Mrs. Oria Reid presided and welcomed twelve members and three visitors.

She opened the meeting by reading a verse, "Kings shall fall down before Him."

The hymn, Holy Night! Peaceful Night! was sung with Miss Marion Robertson as pianist.

The roll call was answered by a verse of scripture containing the word, "Glory".

The next meeting is to be held January 3rd at the manse. The roll call is a verse of scripture containing the word "ice".

Mrs. Hill chose the devotional topic, "Peace at Christmas". Hymn 169, "O Little Town of Bethlehem" was sung followed by the Scripture Reading from the Book of Luke 2: 1-19.

The hymn, "Joy to the World! The Lord is Come" was sung.

God provides a star to direct all His people to the Light of the world where they will find

the fullness of joy. In return the seekers of this Light must dedicate their lives to Him.

Prayer closed the devotional period.

An inspirational topic, "Christmas Thoughts for all the Year" was presented by Mrs. Hill.

At the close of the meeting, Mrs. McOy presented a gift to Mrs. Donehue and expressed the good wishes of the society on her forthcoming marriage.

A bountiful lunch was served by the hostess and her assistants, Mrs. Carl Gabel and Mrs. Tom Deline. A social half hour was enjoyed.

COOPER

A number of ladies attended Summary Day at Stirling on Wednesday afternoon to complete the sewing course on "New Ideas for Knits".

Mrs. Frank Parks, Mrs. Rex Rollins, Mrs. Arthur Parks and Mrs. Bud Holmes, Madoc were Thursday afternoon callers of Mrs. Ray Rose, Stirling. Miss Suzanne Vallieres, Berrien & Springs College, Michigan, is spending the holidays at the home of her parents Mr. and Mrs. Dan Vallieres.

Mr. and Mrs. Alf Bongard, Norwood were Saturday dinner guests of Mr. and Mrs. Russell Kavanagh.

Mrs. Larry Rollins was hostess to a shower for Mrs. Dale Graham who was recently married on Saturday afternoon.

Cooper & Remington W.I. held a pot luck supper and Christmas Concert on Saturday evening in the Community Centre. Mrs. Lawrence Courneyea and Mrs. Fred Stein were in charge of the programme. A good crowd was in attendance and Mr. Francis Taylor held the lucky ticket on the basket of groceries. Proceeds to go to the Rink Fund.

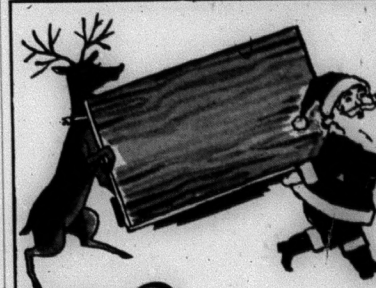

Mr. and Mrs. Dale Graham and Brad, Sutton spent the weekend with Mr. and Mrs. Leonard Graham.

LOOKING BACK

50 YEARS AGO
December 19, 1923

Alexander Wilkison Haycock, son of Joseph L. Haycock, Adolphustown, former Patron of Industry leader in Ontario has been elected Labor member for Wrexford, in the British House of Commons.

Mark Twain, the great humorist, in his early days worked on a Missouri newspaper. A superstitious subscriber wrote in saying that he found a spider in his paper, and asked whether that was a sign of good or bad luck. The humorist wrote this answer and printed it: "Old Subscriber: Finding a spider in your paper was neither good nor bad luck for you. The spider was merely looking over our paper: to see which merchant is not advertising so that he can go to that store, spin his web across the door, and live a life of undisturbed peace ever afterwards."

George Bothwell, of Owen Sound, was elected President of the United Farmers' Co-operative Company at a meeting of the new directors held in Toronto recently.

Rose McGarvey, aged 2 years, the daughter of Mr. and Mrs. Matthew McGarvey, of Marmora, was on Tuesday suddenly taken ill. While the parents were absent the little tot procured a cup of coal oil and drank it, causing strangulation. A physician was called and saved the child's life.

Detlor — Merry Christmas to ye Editor, staff and readers of the little home paper, the North Hastings Review, and also a happy and prosperous New Year.

We are sorry our teacher, Miss Varty, is leaving the school. It may be some job to get another as good.

Mr. Fred Kingens, who successfully underwent an operation at Belleville Hospital, has returned home and is quite well.

Mr. Alex Moore, who passed through a critical operation at Peterboro Hospital, has so far recovered as to allow Mrs. Moore coming home last week and he will leave the hospital this week.

Mr. W. H. Bradshaw has so far recovered from his recent illness as to be able to walk across the room.

Nearly all the boys are away to the camps for the winter. Mr. Mat McLean is getting his new house completed. He expects to move in before Christmas.

We understand Mr. Ed

Kingens has purchased the store and residence from Mr. Adams.

Mrs. S. Tice has returned home after staying with Mrs. S. Kingens during her son's absence.

Messrs. Charlie Liddle, W. G. Smith and P. Smith, of Hillier, and Miss Amy Liddle were in St. Ola district attending the last illness, death and burial of their aunt, Mrs. E. Reid, formerly Katherine Liddle. Mr. P. Smith spent last weekend with several relatives.

Scotch Settlement — Mr. and Mrs. Robt. Noyes motored to Belleville recently.

Mrs. Lyla Holland, Nancy and Florence spent a few days at Mrs. Wesley Wickens.

Quite a number attended the funeral of the late Mrs. Wm. Chambers, of Stirling, formerly of Crookston, interment being made at White Lake Cemetery.

Mr. and Mrs. W. Wickens and children spent Sunday at Mr. Geo. Wallace's, of Ivanhoe.

Mrs. Gladys Ashe entertained company on Sunday evening.

A few from here attended the sale in Rawdon on Monday.

Mr. Ross Holland and Miss Laura Ashe, Mr. Austin Ray and Miss Hazel McGuire spent Sunday at Mr. W. Hollands.

After a short illness one of Allen Settlement's brightest and most estimable residents passed away on Saturday, December 8th, in the person of Mrs. Rosanna (Leech) Rollins, wife of Mr. Joseph Rollins.

Mrs. Rollins was born in the township of Faraday in 1894 and was a daughter of the late Mr. and Mrs. John Leech, who were among the first of the pioneer settlers of North Hastings. She lived at L'Amable until her marriage to Mr. Joseph Rollins on the 14th of December 1921.

24 YEARS AGO
December 15, 1949

Gold-headed canes were presented to two district doctors at a meeting of the Hastings and Prince Edward County Medical Society recently at the Hotel Gilbert, Trenton. The members of the Society met for a dinner of venison presented by Drs. Byrne and Teller. Dr. Walter B. Crowe, Trenton, and Dr. Samuel Eagleson, Madoc, each received the traditional gold-headed cane for fifty years of service as general practitioners. Both men are still active in their professions.

In celebration of their 40th Wedding Anniversary Mr. and Mrs. J. W. Richardson, of Marmora Township, were at home to relatives, friends and neighbours on Sunday afternoon and evening. The mildness of the day permitted a good attendance. Their farm is one of the oldest in the township, the current deeds extending back to 1847.

December 22, 1949

Wedding — On November 5th, 1949, with Rev. Father Dwyer, of Kingston, officiating at Philomena's Catholic Church, Ormsby, Madeleine Anne, daughter of Mr. and Mrs. Chas. Murphy, was united in marriage to Joseph Leo Kelly, son of Mr. Michael Kelly and the late Mrs. Kelly, of Peterboro.

December 29, 1949

Clarke T. Rollins, Reeve of Wollaston Township, was involved in a freak accident on Thursday evening of last week when the car he was driving on No. 62 highway east of Maynooth was struck by a falling tree. The tree was an 18-inch elm. The falling tree, which was broken off during a heavy wind, smashed the windshield of the car severely cutting Mr. Rollins' hands and put the car out of control. The car went into the ditch among some large boulders. Pat LeBerge, Department of Highways employee, arrived on the scene shortly after and said Mr. Rollins was out of the car but in a dazed condition. He was brought to Bancroft Red Cross Hospital 25 miles distant, where he was attended by Dr. O. W. Anderson and then permitted to return to his home at Coe Hill. The accident occurred on McGregor's Hill, ten miles east of Maynooth and was investigated by Provincial Constables J. Hawkins and W. Fitzsimmons, of Bancroft. The new 1949 model Desoto was an almost complete wreck.

Fifty years ago on December 20th, a pretty wedding was solemnized by the Rev. J. A. Claxton, at the home of the bride's parents, Mr. and Mrs. Robert McKnight of Cooper, when their daughter, Ida, became the bride of Albert Duggan. The bride was attended by her sister, Miss Mabel McKnight, and the bridegroom, by his brother, Mr. George Duggan. Last Monday, Mr. and Mrs. Duggan, surrounded by friends and relatives, relived again, the happy day, by commemorating it with a golden anniversary. The home was beautifully decorated in a white and gold color scheme with baskets of golden colored chrysanthemums, golden bells and white and gold streamers. A three-tiered wedding cake,

richly embellished in white and gold, centred the dining room table, while the living room was gay with a brilliantly lighted Christmas tree; and a little Swiss church with steeple and bell, with lighted windows added to the lovely appearance of the room.

Weddings — A quiet wedding was performed at the home of Rev. Alfred Poulter of Madoc, on Wednesday, December 21, at 2 p.m., when he united in marriage, Jean Winnifred Warren, youngest daughter of Mr. and Mrs. Chas. A. Warren, of Madoc, to Nelson Louis Reynolds, son of Mr. and Mrs. Thomas N. Reynolds, of Madoc.

On December 27th, a quiet wedding was held at the Standard Church parsonage, Madoc, when Rev. W. G. Burch united in marriage Shirley Helen Reynolds, daughter of Mr. and Mrs. Percy Reynolds, of Madoc, to Otis Morden Richardson, son of Mr. and Mrs. Morley Richardson, of Frankford.

15 YEARS AGO
December 23, 1958

Friends of Crookston and surrounding neighbourhood gathered at Ivanhoe Town Hall, Friday, December 12, in honour of the bride and groom, Mr. and Mrs. Ray Rohrbach. Dancing was enjoyed until 12 o'clock then the address was read by Lois MacMullin and Mr. Elmer Wood presented them with a set of dishes and silverware from the community. Lunch was served. Music was provided by Mr. and Mrs. Bill Young and Jim, of Madoc.

Mr. and Mrs. Harry Walden will celebrate their thirty-fifth wedding anniversary on Thursday of this week (Christmas Day).

Engagement — Mr. and Mrs. Harry Tufts, of Madoc announce the engagement of their daughter, Shirley, to Dr. Jack Posnikoff, of Saskatoon, Saskatchewan. The wedding will take place on December 30th, at 7 p.m. in the Chapel of R.C.A.F. Station, Winnipeg.

"If you have old Christmas tree lights which you have used year after year, better check them closely before you put them on the tree." They should be inspected for damage and fraying. Loose connections and bare wires have started many a disastrous Christmas tree fire. Figures released by the Ontario Fire Marshal's Office show that over 5,000 fires caused nearly \$10 million in property damage, along with 58 fire deaths during the holiday season in 1957. By all means do not use candles. Even light bulbs produce heat

and heat produces fire so make sure no bulbs actually touch the tree. Also be sure your fuse circuit has nothing heavier than a 15 amp fuse and always turn your tree light out when leaving the house or retiring for the night. It takes only 18 seconds for an average evergreen tree to burn to charred wood, so let's all be extra cautious so we may all enjoy a Merry Firesafe Christmas.

Miss Rosemary Feeney, of Smiths Falls, is a patient in the Belleville General Hospital.

Mr. John C. Barry, Ottawa spent the weekend with his parents Mr. and Mrs. Frank Barry, of Queensboro.

Mrs. Fred Curry is a patient in the Belleville General Hospital.

Mr. and Mrs. Thos. Ash, Madoc township, are spending the holiday season with Mr. and Mrs. Joe Ash.

Mr. and Mrs. J. Holdship, of Smiths Falls, spent Monday with Mrs. Josephine Feeney.

Miss Patsy Alexander is a patient in Belleville General Hospital where she underwent an appendectomy.

Mr. and Mrs. Fred Bosley and Katherine spent Saturday in Kingston with Mrs. Bosley's parents, Mr. and Mrs. G. Corkey.

Mr. and Mrs. Ed Holmes spent Sunday with Mr. and Mrs. Arthur Holmes.

Mr. and Mrs. Carl Gordon and Mr. and Mrs. Jas. Gordon attended the party for Mr. and Mrs. Lee Johnson (newlyweds) held in the Hall, at Florado, Friday night.

According to statistics gathered at check stations hunters were more successful

this year than last, in spite of the mild weather. For the most part, hunters reported that they had seen more deer, had a good time and left lots of deer in the bush for future years. However, there were a few gripes. The majority of the hunters reported that the season was too early, and also they asked for a set date for the opening. The latter being so that persons could plan ahead for their holidays.

Summary of statistics — Number of hunters checked

2,756. Number of deer killed 821. Number of days hunted 15,037. Hunter's success 29.8%. Persons who hunted from an organized camp had the better chance of bagging a deer as figures show that 2,345 hunters had a success rate of 32.1% while men who hunted casually only had a 16.5% rating. There was an increase in the number of bears killed this season. Department officers checked 30 killed by hunters with other kills being reported.

Best wishes for old fashioned Christmas joys... and thank you for the pleasure and privilege of serving you, our valued friends.

NOTICE

Regarding parking vehicles on Village streets during winter months.

In order to properly snow plow the streets it is necessary that no overnight parking be allowed on the streets. Offending vehicles will be towed away at the owners expense.

The co-operation of the public is requested at all times during storm periods to keep parked vehicles from interfering with the snow plows.

The Village forces are going to attempt to keep the sidewalks clean this winter. This too, will require the co-operation of the public and those doing custom snowplowing, to avoid pushing snow and slush on to the walks, where it would freeze and stop the snow blower.

Arrangements can be made by individuals or places of business at the Village office to have accumulated snow on private property removed by the Village forces, at the time when snow is being taken from the streets. Charges in this case will be based on cost.

Robert Kirkwood, T. Burnside,
Chairman of Streets. Clerk-Treasurer.

Council met on Friday, December 14th, 1973 at 1:00 p.m. with Reeve Cecil Woods, Deputy Reeve John Irwin and Councillors Christie Bailey, Harold Harris and Don Wannamaker present.
Harris — Wannamaker — that the minutes of the special meeting November 19th to plan for garage opening and regular meeting of December 3rd be accepted as read.
carried.

SNOWMOBILE ACCIDENT

(Continued from Page 1)
sion, a broken jaw, and cuts on his head, was Gerald B. Laton, 21, who is now listed in fair condition, after the snowmobile he was driving ran into a parked car in Queensboro.
The snowmobile was a write-off, and damages to the car owned by Mrs. Jean Holmes, were estimated at \$300. The snowmobile went right under the car, raising the rear wheels off the ground in the crash. Police said that had the Laton not been wearing a helmet, his injuries would have been much more serious.
Const. W. Sawkins of the Madoc Detachment, Ontario Provincial Police, investigated.

Mr. C. H. Pope, Fire Services Adviser was present to discuss fire protection for Madoc Twp. Mr. Jerry Morrison was also present for this discussion.

Irwin — Harris — that the Ontario Fire Marshall be requested to conduct a Municipal Fire Protection Survey of the Twp. of Madoc at their earliest convenience. The Survey Report to be strictly confidential between the Office of the Fire Marshall and the Municipal Council of Madoc Twp. and the Survey be made at no cost to the municipality.

Wannamaker — Irwin — that we refund Russell Dafco \$2.40 on overpaid 1973 taxes. Mistake of assessment office.
carried.

Wannamaker — Harris — that the Reeve Cecil Woods be the representative on Moira River Conservation Authority for 1974.

Bailey — Irwin — that we join the Good Roads Association and spend the prescribed fee of \$25.00 for 1974, carried.
Mr. Weiger de Jong and Gibson Bailey, representative from Kestock Associates were present to discuss minor details to complete the Township garage.
Irwin — Wannamaker — that we accept Weiger de Jong's bill of \$492.50 for

extras on electrical wiring for Twp. Garage, subject to approval of the Ministry of Transportation and Communications.
Harris — Bailey — that we accept the completion of the garage on October 15th, 1973, therefore no liquidated damage be charged. Township took occupancy November 1st, 1973, agreement guaranteed to October 31st, 1974, carried.

Living With A French Canadian Family

(by Sheila Nolan)
When I first walked into the door I realized that they were a warm and friendly family. They were very kind to me and they would always make sure that I had enough to eat. Their food was the same as ours except they had a bowl of soup before the big meal. Their home was similar to ours and their furniture was modern. I thought that the family was wonderful and if I had another chance I would love to go back. Except for the different language it was just like living at home with my mother and father.

W. Pt. lot 15, con. 5 and File No. B446/73 Violet Johnson Pt. lot 21, con. 5, were reviewed and consent given.
Wannamaker — Bailey — that we give the library a grant of \$200.00 and the Agricultural Society a grant of \$100.00.
carried.
Irwin — that council adjourn to the call of the revee.

A STATEMENT OF CONCERN BY THE HIGH SCHOOL TEACHERS OF HASTINGS COUNTY

Let's be clear, we are not happy about any idea of "walking-out" but recent unjust legislation by the Ontario government leaves us in an untenable situation.

Why do we protest this legislation?

The legislation, an amendment to the Ministry of Education Act does the following:

a) It infringes on the civil rights of teachers by limiting our ability to resign from teaching positions we find unacceptable.
b) It removes the right of mass resignation from several groups of teachers after they have already legally exercised that right.

c) It affects not only teachers. This amendment will have an adverse effect on the general position of any employee in his collective bargaining and it also has implications for the civil rights of any employee in his contract with his employer.

d) Other labour and professional groups recognize the danger of this legislation and have publicly announced their support for the teachers. Among these organizations are: The Canadian Labour Congress, the Ontario Federation of Labour, the Canadian Union of Public Employees and the Ontario Medical Association.

Our protest is not directed against the Hastings County Board of Education or the students of Hastings County.

Our walkout must be put in perspective. Since 1944 mass resignations by teachers have resulted in the loss of less than a month of teaching days over 28 years. This exemplary record of restraint hardly merits the sledge-hammer legislation by the government.

OBITUARY

MRS. GEORGE McKINNON
Madoc

A lifetime resident of the Madoc area, Mrs. Ethel Ann McKinnon, Madoc, died Wednesday, December 12th, 1973, in Belleville General Hospital. She was in her 90th year.

Daughter of the late Mr. and Mrs. Frank Trotter, she was born in Madoc township and was a member of Trinity United Church.

Predeceased by her husband, she is survived by a son Donald G. McKinnon, R.R. 2, Madoc, a daughter Mrs. D. (Jean) Dempsey, of Appleton, Wisconsin, and seven grandchildren.

There are four sisters, Mrs. J. (Margaret) Keene of Belleville, and Mrs. J. (Florence) McMechan, Mrs. F. (Christina) MacKillican, and Miss Blanche Trotter, all of Madoc. Two sisters and five brothers predeceased her.

The funeral was held on Saturday afternoon, December 15th with service conducted in the MacKenzie Funeral Home, Madoc by Rev. D. W. Heard and Rev. E. R. Hawkes. Interment took place in Hazard's Cemetery.

Bearers were: Stewart Munroe; Maxwell Trotter; Angus MacKillican, Carl Trotter, Edward West and Lawrence Trotter.

Oil Kings Take Two Victories

The B.P. Oil Kings took two important wins over the weekend to stay in second place in the Trent Valley Intermediate D. League.

Friday night the team gave Bancroft no reason to celebrate the festive season as they thumped that team 15-4. Saturday wellington was on the short end of the stick, as they were defeated 9-6.

Bancroft got off to a slow start and were behind 7-0 after the first period. Nearly all members of the team got points; even goalie Larry Charlton added an assist. Bancroft, hampered by a lack of playing personnel, managed to score three goals in the second, but the Oil Kings also got three goals to match them. In the third the team got five goals to Bancroft's single. The scoring was done by three goals apiece for Terry McGregor, Louis Rivers, and Brian O'Coin. Single goals were scored by Holmes, Perry, Potts, Lessard, LeSage and Smith.

Saturday was much closer as Wellington came very close to winning. It looked like a runaway could develop as the Oil Kings took a 3-1 lead into the second period. Paul Farrell scored twice, once from Lessard and once from O'Coin. St. Jules scored from Smith. In the second period play reversed (as usual) but so did the flow. Wellington got four goals and the Oil Kings managed three goals. After two periods it was 6-5 for the Kings. Doing the scoring was St. Jules with one, an assist to Smith and Holmes; and Smith, with two assists to Doug Perry.

In the final period Wellington tied the score, but the team battled back and got three goals. Farrell scored from McGregor, O'Coin got an unassisted goal and Garry Brook rounded out the scoring from Grant Hagerman.

Next week there are no home games, as the team travels to Campbellford Saturday night and to Bancroft for a Sunday afternoon game. From all associated with the team, have a happy and hols festive season!

WEDDING

ROSE - DONALDSON

St. Bartholomew's Anglican Church, Bannockburn, was the scene of the pretty wedding of Fern Donaldson, daughter of Mr. and Mrs. Robert Donaldson, and Randy Rose, son of Mr. Allan Rose and the late Mrs. Rose. The wedding took place on Saturday, December 1st, at 4:00 p.m.

Rev. J. H. Thompson officiated at the double ring ceremony. The wedding music was played with Mrs. Joseph Donley of Bannockburn at the organ.

The bride, given in marriage by her brother, Mr. Arthur Donaldson, was radiant in a full-length gown of white peau de soie, white lace trimming and a long white lace train. Her shoulder-length veil of tulle was held by a headpiece of white roses and she carried a bouquet of pink roses and ivy.

Matron of honour was Mrs. Linda Graham, Cooper, who wore an A-line dress of mauve crimpoline and carried a bouquet of white and mauve flowers. Miss Darlene Ferguson, niece of the bride, was a bridesmaid and was dressed in a green A-line crimpoline gown and carried a bouquet of white flowers. Miss Debbie Rose, sister of the groom, was also a bridesmaid and wore a yellow A-line gown of crimpoline. She carried a bouquet of white and yellow flowers. The bridesmaids all wore matching velvet ribbons in their hair.

Mr. Elwood Graham, Cooper, attended the groom and the ushers were Mr. Ray Donaldson, brother of the bride, and Mr. Richard Rose, brother of the groom.

The little flower girl was

Miss Joanne Simpson. She wore a long dress of pink and white and carried a nosegay of pink roses. Ring bearer was Master Mark Graham who carried a heart shaped pillow with the gold rings on top.

At the reception which followed in the Cooper Community Centre the bride's mother received the guests wearing a long dress of deep mauve crepe, black accessories, and a light mauve orchid corsage. Assisting was the groom's sister, Mrs. Diana Adams, Belleville, wearing a long dress of yellow double knit, black accessories and a pale yellow orchid corsage.

A wedding dance followed with music by the Anna Marie's. Many lovely gifts were received by the bride and groom.

Fun was enjoyed by all when Miss Connie Ferguson, niece of the bride, caught the bridal bouquet. Great excitement arose on the bidding for the bride's garter which was finally purchased and removed by Mr. James Clarke.

For the wedding trip the bride wore a double knit pant suit of dark green, matching accessories, and a corsage of pink orchids.

The couple will reside in Cooper.

Camels Are Most Picturesque of Bible Animals

Camels and Christmas seem to go together. The Three Wise Men used camels in their stately journey to Bethlehem to the scene of the Nativity. They have a rather regal bearing that has become an integral part of the Christmas picture.

The camel sees objects at great distances and scents water long before the driver spots an oasis. A great asset in desert travel is its "extra stomach" and a storage bin in the hump which enable it to travel long distances without food or water. The camel is also known for its snarly temper and foul breath.

The camel's gestation period lasts a year, and produces only one offspring at a time. The baby camel stands 3 feet high at 8 days. It suckles its mother's milk for a year.

Many valuable products come from the camel. Its hair is clipped in the summer and woven into the finest warm garments. Its hide is used for bags and shoes. Its manure is used for fuel cakes. For food, it supplies milk.

It is also a source of leather, and its milk is used for food. The camel is a very hardy animal, and can survive in the most arid of climates.

Other animals that have been mentioned in the Bible are the ox, the donkey, and the sheep. These animals were also used by the Three Wise Men in their journey to Bethlehem.

CHRISTMAS MEDITATION

By Rev. Everett Hawkes

St. Peter's Presbyterian Church

On the night of the birth of Jesus, the world was filled with peace and joy. The angels sang, and the shepherds were guided to the manger.

He who was born in a stable, who lived in a manger, who was crucified on a cross, and who rose again for our salvation.

He who was born in a stable, who lived in a manger, who was crucified on a cross, and who rose again for our salvation.

He who was born in a stable, who lived in a manger, who was crucified on a cross, and who rose again for our salvation.

He who was born in a stable, who lived in a manger, who was crucified on a cross, and who rose again for our salvation.

He who was born in a stable, who lived in a manger, who was crucified on a cross, and who rose again for our salvation.

He who was born in a stable, who lived in a manger, who was crucified on a cross, and who rose again for our salvation.

He who was born in a stable, who lived in a manger, who was crucified on a cross, and who rose again for our salvation.

He who was born in a stable, who lived in a manger, who was crucified on a cross, and who rose again for our salvation.

He who was born in a stable, who lived in a manger, who was crucified on a cross, and who rose again for our salvation.

He who was born in a stable, who lived in a manger, who was crucified on a cross, and who rose again for our salvation.

know and confess: Jesus Christ is Lord!

We do not have a High Priest who cannot be affected with our weaknesses, but One Who was in every way tempted as we ourselves are, only without sin. Let us therefore come boldly to the throne of grace, so that we may obtain mercy and find grace to help us when we need it.

The Church has struggled to maintain these two paradoxical strands of the Bible's teaching about Him. One of the Gospels reads: "Jesus, the eternal Son of God, became man, and so was, and continues to be, both God and man in two distinct natures and one Person forever."

As true and perfect man He suffered for our sins. As true God, His infinite worth atones for the sins of many.

Festive Cocktails For Teetotalers

MOD-FASHIONED: Chilled cola and lemon and lime soda mixed half-and-half. Pour over ice cubes and add orange slices, pineapple spears and maraschino cherries.

NEW TWIST: Chilled orange juice and quinine water mixed half-and-half. Serve as is or over ice cubes.

SCARLET SLING: Season chilled tomato juice with dashes of Worcestershire, Tabasco, lemon juice and celery salt. Insert a celery stick stirrer.

RUSSIAN SOUR: Mix equal parts of chilled strong tea and cranberry juice. Add frozen, concentrated, undiluted lemonade to taste. Add an egg white for every 4 cups and shake until frothy. Serve with orange slices and maraschino cherries.

The Donkey, A Family Favorite

The donkey, or ass, was the most valuable animal to the biblical family, and also the most economical, since he ate only a quarter as much barley as a horse. The most menial of animals, he was famous for his stamina and sure-footedness. Humble as his status was, he would bear the cameler on his back, and lead the long, stately strings of camels across the desert.

Even poor families, like Joseph's of Nazareth, could afford one donkey, which they trimmed with blue beads and red wool to show their pride of ownership. This simple beast was their mode of transport into Bethlehem and later for the Flight into Egypt.

The Bible Gives Sheep Deep Significance

Authorities disagree as to what kind of sheep existed at the time of Christ. Three varieties exist in Syria and Palestine today, sprung from the three wild sheep groups still found in Asia.

(1) The Asiatic mouflon depicted on Sumerian vase from early Babylonian supposed to have been domesticated around 3,000 B.C.

Madoc Women's Institute

The December meeting of the Madoc Branch of the Women's Institute was held on Friday, December 14th, at the home of Mrs. Warren Hill. After a short period of business (remember the Short Course on Choosing and Using Fabrics to be given on February 6th in the Anglican

Hall in Madoc) the meeting took the form of a Christmas Party under the Conventship of Miss A. Adams and Mrs. K. Gordon, many old favourite carols of Latin, German, Polish and English origins were sung to the spirited accompaniment of Mrs. Rene Crawford, at the piano. Then there were short readings by Mrs. Gordon and Mrs. A. Bailey. The meaning

of Christmas, Santa's Elves, The Christmas Lights, and Christmas at the Fort. Next in came a jolly, plump Santa Claus (Mrs. W. Roemer) tottering under a huge sack of gifts which he proceeded to distribute to everyone present, along with an original verse for each. Delicious Christmas refreshments were served by Mrs. Hill and her assistant

hostesses, Mrs. D. Kierohan, Miss L. Connor and Mrs. D. Carman. Appreciation to the hostesses and to the program and lunch committees was expressed by Mrs. F. Gates and Mrs. D. Carman.

The January meeting will follow a potluck dinner at noon at the home of Mrs. K. Gordon.

TARGET TALK

Madoc Hunter & Anglers held their last 1973 Rifle shoot on December 9th with twelve contestants participating. The weather was very unfavourable but there were some very good scores. The points will be counted and the trophies presented at the January shoot. The winners of this shoot were: Round 1, Jim Pope, 50 yds.; Round 2, Mike Quinn Sr., 50 yds.; Round 3, John Caldwell, Group, 100

yds.; Round 4, N. Pigden, 100 yds.; Round 5, Bill Donaldson, 100 yds.; Round 6, Lloyd Hicks, 100 yds.; Round 7, Joe Quinn, 50 yds.; Round 8, Joe Foley, 50 yds. The points accumulated for the days shoot were: Joe Foley, Class 1, 15; Group Class 2, 21; Class 3, 25; Class 4, 19; L. Hicks, 14, 25; 30, 20; J. Quinn, 16, 25, 27; 19; Dr. Wyatt, 15, 16, 28, 14; Bill Donaldson, 16, 21, 30, 20; M. Quinn Sr., 16, 21, 29, 17; Dale Donaldson, 14, 19, 27, 47; Clarence Bovay, 13, 12, 14, 44; John Caldwell, 16, 25, 30, 20; Jim Pope, 17, 22, 19, 0; N. Pigden, 14, 25, 20, 8; J. Fleming, 18, 9, 17, 6.

The next regular shoot will be January 13th, 1974. See you at the rifle range.

Goats Also on the Domestic Scene

Practically every family in Bible times owned at least one goat. A family could get almost their whole livelihood from the products of a goat. From goat hair, tent and garment cloth, curtains and pillows were made (1 Samuel 12:13). Water bags, a vital necessity in these desert areas, were made of goatskin. Food products included milk, cheese and meat. Even the horns of the bearded goats were used.

Kissing Under Mistletoe

The word "mistletoe" derives from the Anglo-Saxon word "misteltan." It is a parasitic plant which grows on evergreen trees, with small yellowish-green leaves, yellowish flowers and waxy white, poisonous berries.

Under a sprig of mistletoe men are by custom privileged to kiss any women standing under it. The man is supposed to first remove one of the berries and present it to the woman. When all the berries are gone, this kissing game is over. It is thought this custom comes from an early pagan marriage rite.

Mistletoe was considered sacred by the Druids in ancient Britain and they performed elaborate ceremonies around it at the winter solstice. Because of these pagan associations, it is seldom used in church decorations.

The Hastings County Board Of Education Hold Meeting

A regular meeting of The Hastings County Board of Education was held in the Board Room, 208 Bridge St. East, Belleville, at 7:30 p.m., Monday evening, December 10th, 1973, with all members present except Messrs. Brant and Clarke.

M. Roberts — M. Waller — that the minutes of the regular meeting of November 26th, 1973, be approved as presented. carried.

J. Spry — J. Forbes — that the Board apply to the City of Belleville for a tax refund to include that portion of the tax assessment attributable to the removal and pickup of the garbage from the four secondary schools in the City of Belleville. carried.

M. Waller — D. Williams — that approved metal containers for the collection of refuse and garbage, be purchased for those schools requiring them, as funds will permit. carried.

R. Rowe — D. Thrush — that the Board proceed with a Construction Management Procedure for Moira Secondary School addition and alterations. carried.

R. Weaver — M. Roberts — that Phase I of the alterations at Belleville Collegiate Institute and Vocational School, covering the Music Room and Home Economics area, be deferred until the summer of 1974. carried.

Mrs. M. Graham — R. Rowe — that (a) the Board support the position taken by

the Ontario Association of School Business Officials with respect to OMERs (Ontario Municipal Employees Retirement System) as detailed in its Bulletin dated 15 November 1973; and (b) Letters of Support be written to: 1. The Minister of Education; 2. The Treasurer of Ontario; 3. The two local members of the Provincial Legislature; 4. The Ontario Association of School Business Officials. carried.

Trustee M. Graham presented a verbal report on the Regional Conference for School Trustees and Administrators held recently in Ottawa and attended by Mrs. Graham, Mr. Roberts and Mr. Thrush. Trustee M. J. Hutchison reported that College St. School in Trenton is celebrating its 100th Anniversary this year.

Mr. D. Lockyer reported on the seven mini-module courses to be given this winter by The Hastings County Board of Education in co-operation with Queen's University as part of our ongoing Professional Development Program. Courses to be offered are: 1. Utilization of Time; 2. Intermediate Science; 3. Counselling for Personal Problems; 4. Methodology for Curriculum; 5. Innovative Methods in Mathematics; 6. Canadian Studies Program; 7. The Social Side of Schools.

E. Robinson — K. Little — that the Board resolve into Committee of the Whole, to consider the following items of business: Clerical Salaries, Para-Professional Salaries, Supervisory Salaries, Transportation Committee meeting of December 3, 1973, 1974 Budget, Resignations, Retirements, Transfers.

Mr. John Bancroft reported verbally on a meeting of the Transportation Committee held Monday, December 3rd, regarding the difficulties incurred in providing transportation for paraplegic pupils to the various schools in the County. It was felt that in such instances financial assistance should be provided by the Ministry of Health. The Director was instructed to write to the Minister of Health, the Minister of Education, with copies to the local Members of Parliament, and

to take whatever follow-up procedures were deemed necessary, and report back to the Board.

J. Forbes — Mrs. M. J. Hutchison — that the Board approve the schedule of salaries for Clerical personnel, effective January 1st, 1974, as presented in Item D.13-1 of the Agenda and shown on page 446a of these minutes.

That the Salary Schedule be adjusted to cover a two-year period with an average 8% increase in 1975, including increment.

That if an employee of the Graded Office Staff changes in position to a lower category, there not be a monetary probationary period; i.e. the employee moves directly across the Salary Schedule and the initial hiring date is the basis for future increments.

That when an employee of the Graded Office Staff changes to a higher category, either as a result of bidding on another job or reclassification of the present job, the employee move directly across the Salary Schedule on the same level as the current position, provided that the move is only to the next category. But if the move covers two or more categories, e.g. Category 2 to Category 4, the employee will drop one level.

That a full-time Elementary School Secretary who, because of decreased enrolment in the school, is placed on a part-time basis, be permitted to maintain Sick Leave, O.H.I.P., Vacations and Statutory Holidays on a 100% basis. But if the move covers two or more categories, e.g. Category 2 to Category 4, the employee will drop one level.

That a full-time Elementary School Secretary who, because of decreased enrolment in the school, is placed on a part-time basis, be permitted to maintain Sick Leave, O.H.I.P., Vacations and Statutory Holidays on a 100% basis. But if the reduced time is less than three days per week, then the secretary be considered a part-time employee. carried.

J. Forbes — Mrs. M. J. Hutchison — that the Board approve the schedule of salaries for Educational Re-

source Technicians and Registered Nurses, effective January 1st, 1974, as presented in Item D.13-2 of the Agenda and as shown on pages 446b and 446c of these Minutes. carried.

J. Forbes — Mrs. M. J. Hutchison — that the Board approve the schedule of salaries for Supervisory Personnel, effective January 1st, 1974, as presented in Item D.13-3 of the Agenda and as shown on pages 446d and 446e of these minutes. carried.

B. R. Collins — E. Robinson — that the Board accept the resignations of teachers, effective December 31st, 1973, including Mrs. S. F. Grose, Madoc Twp. Public School; carried.

R. Weaver — M. Roberts — that the Board accept the resignation, due to retirement, of Mr. F. Beckley as Principal of North Hastings High School, effective August 31, 1974; and, also due to retirement of Mr. J. C. Garrett as Superintendent of Schools, effective December 31, 1973. carried.

D. Williams — K. Little — that the Board approve the transfer of Miss E. D. Goughly from College St. Public School in Trenton to King George Public School in Belleville, and of Mrs. L. G. Wilson from Park Dale Public School to King George Public School. carried.

B. R. Collins — M. Roberts — that Mr. Robert Graham's contract as Vice-Principal of Quinte Secondary School be terminated as of December 31st, 1973, that his present salary be continued to June 30, 1974, and that he be guaranteed a teaching position within our system in September, 1974. carried.

B. R. Collins — M. Roberts — that Mr. Milton Kerr be appointed as acting Vice-Principal at Quinte Secondary School, effective January 1, 1974, for the period January 1, 1974 to June 30, 1974. carried.

Biblical Group of Domestic Animals. Present at the Stable in Bethlehem

Scientists have established that domestication of animals first began in the Holy Land several thousand years before the birth of Christ.

The ox, ass, camel and sheep are known as the biblical quartet of animals because of their frequent mention throughout the Old and New Testaments. All of these were probably present in the stable when Christ was born.

Oxen, when mentioned in the Bible, may refer to bullocks, bulls, cows, heifers or calves, all of which belong to the Bovidae family.

The bullock was the young male ox; bulls were male cattle; heifers were young female cows; the ox was a castrated male bovine.

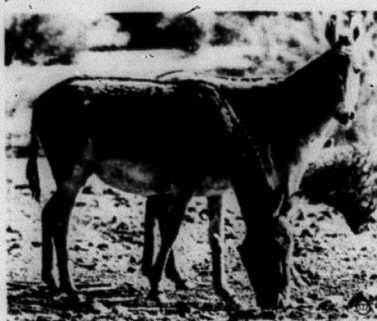

The ox, whose name is synonymous with physical strength, probably originated in Asia and appears to have been the first domesticated animal owned by families in the Holy Land. He was used for heavy farm work. Even the poorest family owned at least one ox.

The word "cattle" originally meant "possessions" in Hebrew and included flocks of sheep, goats and other herded animals.

(2) The Egyptian, long-tailed sheep are related to an ancient breed grown in the Ural mountains, long considered the boundary line which separates Asia from Europe.

(3) The large, broad-tailed, curly-horned, creamy, deep-wooled sheep, that appear in so many biblical illustrations, came from Kurdistan at the head of the Tigris-Euphrates valley, which was the cradle of biblical civilization.

Wild grapes, wild wheat, wild asses and wild sheep grow in these Mesopotamian highlands today. People can

still live here, near Mt. Ararat with almost no effort and some theologians feel that the site of The Garden of Eden may well have been located in this area.

In Bible times, every Palestinian family bought two lambs at Passover time. They killed one to eat at the feast celebrating their safe exodus from Egyptian bondage. The other, they kept as a pet for their children and as a future source of wool for their looms and food for their table. The lamb slept with the children, ate juicy grasses from their hands and drank from their cup. When the animal became full grown, they killed it and put down its meat for the winter, storing it in the sweet fat from its tail. The tail, which sometimes weighed as much as thirty pounds, was a real burden to the animal.

ed, while the ram is not a goat's horns differ from a ram's, and his odor is stronger.

Frisky goats were compared to wicked people, and obedient sheep to gentle folk. From this we get Christ's parable of the final distinction between good and evil: "He shall separate them one from another, as a shepherd divideth his

sheep from the goats."

Matthew 25:32. People would choose a goat from the flock by drawing lots, then turn it loose in the wilderness to die, because they believed they could impose their sins and misdeeds on the goat and its death would redeem them. This goat was called a "scapegoat."

You're on our greetings list. Happy Holidays and sincere "thank you."

How Santa Claus Became An American Christmas Tradition

The tradition that Santa Claus is the giver of Christmas presents comes to us from a fourth century German legend of St. Nicholas. (Santa Claus is a German corruption of the name.) When St. Nicholas learned of three young women who were unable to attract suitors because their father was too poor to provide them with a dowry, he filled three bags with gold one night

and threw them into the windows of the rooms of the young women. Soon after, they were all happily married. Unexpected gifts were thereafter attributed to St. Nicholas.

The myth that Santa Claus descends the chimney to fill the stockings comes from the Norwegians. Their legend tells us that at the winter solstice the goddess

Hertta appeared in their fireplaces and brought with her happiness and good fortune.

Dr. Clement Clarke Moore, a professor in the General Theological Seminary in New York, put the myth in the form of a poem, "The Visit of St. Nicholas." He invented the sleigh and the reindeer and his description of St. Nicholas was suggested by the appearance of a German man-of-all-work in his employ. The sleigh bells were suggested by the bells on the bridle of his own horse. He wrote the poem for his children in 1822 and read it to them on Christmas Eve of that year. This poem has become the foundation of our own rich American tradition about Santa Claus.

"Feast of Lights" in Merrie Old England

Over 1400 years ago, the Council of Tours decreed that the celebration of Christmas should continue on for twelve days through Epiphany, which falls on January 6th. This day, also known as "The Feast of Lights," is still observed by many churches.

It became customary, through the centuries, for the reigning King of England to open Twelfth Night revels by throwing dice. In the 17th century, Charles II played for high stakes, winning 150 pounds one year

and losing 100 pounds the next, both tremendous sums for that period.

Festivities included choosing a King and Queen of the feast. Slices of a plum cake containing a bean and a pea were served and the man who got the bean and the woman who got the pea were crowned King and Queen. With toasts to the royal pair, the party got into full swing. Revels wound up with final kisses under the mistletoe. Before sunrise, all the Christmas greens had to be taken down because of the prevailing superstition that a goblin would appear for each leaf that was not removed in time.

The Legend of Christmas Tinsel

According to an old legend, a poor peasant woman, with many children, decorated a Christmas tree with such humble trimmings as she was able to gather, mostly berries and nuts and such odds and ends as she had managed to save up during the year. She labored far into the night trying to make her tree as beautiful as she could.

While she was asleep, spiders came and crawled from branch to branch trailing their lacy webs behind them. To reward the woman for her devotion, The Christ Child blessed the tree and all the spider webs were turned into gleaming silver.

CHRISTMAS LIGHTS AND GIFTS SHOULD BE CHECKED SAYS HYDRO

While there is some curtailment as to the amount of outside Christmas lighting displays this season because of the energy crunch, Ontario Hydro's electrical inspection department issues its annual warning to check closely all such lights and to keep a sharp lookout for electrical appliances available as gifts.

"There is no question that the market is flooded this year, as is usual at Christmas, with

shoddy, sub-standard and potentially dangerous lights and other appliances," a Hydro spokesman warned.

He said these appliances are sold as "bargains" throughout the year, but are especially noticeable in the period before the annual buying spree.

One of the most common complaints has to do with "mini" hair dryers. Some of these are sub-standard and

definitely dangerous. A quick check can tell whether they carry the CSA label, indicating the appliance has the approval of the Canadian Standards Association. Many don't.

"Some of these have turned up at Christmas parties for children where the favors and prizes are all handled by an entrepreneur who caters the whole party. We had a recent case where one of these faulty dryers caused burns to the hands of one of the children."

Another offender this year is the off-shore manufacturer who sold thousands of "top of the tree" light clusters across Canada. The tiny plug-in lights are unsafe and could easily cause shocks or tree fires. Some bear the CSA label without having been approved by the standards association.

Since Ontario Hydro electrical inspectors have the authority to order withdrawal or to lay charges a number of suppliers are being prosecuted in court this week, the spokesman said. He said, "besides these prosecutions it is also against the law for a firm to advertise electrical equipment or supplies which haven't received CSA approval."

Reminders concerning Christmas tree and house lighting for the festive season are again repeated.

"One of the great dangers, especially this year when lighting is being cut back due to the energy crisis, is that some householders will try to get one more year out of the lights and displays they have on hand. Some of these Christmas fixtures are old and worn out. Wires are often bared or perhaps indoor lighting is used out of doors. This can be false economy with dangerous possibilities."

"Loading two or three sets of lights on one plug is another potentially dangerous habit. Don't do it."

A common danger exists

when a light socket has been left empty after the removal of a burned out or broken bulb. The empty socket may invite an inquisitive child to put a finger in the socket and get the inevitable shock.

Metallic reflectors can become "live" when they contact an empty socket or a bare wire.

"If you have an old set of lights, indoor or outdoor, check it very carefully before deciding to use it one more time," an electrical inspector said. "Splicing or taping worn wiring may not always lead to savings."

One more reminder. "Turn off Christmas lights as well as tree lights before going to bed, just in case. Santa will always be able to find his own way."

O.P.P. REPORT

During the week of December 10 to 14th, 1973 12

motor vehicle accidents have been reported to this office. Only one of these accidents resulted in personal injury with one female taken to Belleville General Hospital. Total estimate of damages from all accidents was \$7,475.00.

Two thefts were reported during the week. Two break enter and thefts were reported: one in Marmora Township and the other in Hungerford Township.

One disturbance was reported in Madoc Village and two in the village of Marmora. Two reports of wilful damage were received.

One Madoc area man has been charged with impaired driving.

Three male persons have been charged with "Having Unlawful Sexual Intercourse in a place other than a residence." One male person has been charged with intoxication in a public place.

On December 10th, 1973, a barn fire was reported to this office. The barn located in Marmora Township was completely demolished by fire along with 34 head of cattle, 20 pigs and approx. 70 hens. This fire is now under investigation by the fire marshal's office, Belleville.

Approximately 20 other general occurrences were reported, some of which involved the following: Suspicious vehicle obstructing traffic, found property, lost property, lost licence plates, and fraud.

Madoc Baptist Church Women's Mission Circle

The December meeting of the Women's Mission Circle was held at the home of Mrs. J. J. Forbes on Monday, December 10th at 8:00 p.m.

Mrs. Warbrick opened the meeting. The carol, "Oh Come All Ye Faithful," was sung followed by prayer. Roll call was answered with a verse about Christmas. Mrs. Warbrick led in prayer for missionaries.

Mrs. Geo. Moorcroft, group leader gave a very interesting and helpful talk on the Christmas story. Mrs. Forbes read John 1-11. He came into His own and His own received Him not. There was no room in the inn. Today many have no room for Jesus. The true meaning of Christmas is personal. Material things of ten take precedence over the true meaning of Christmas. The true meaning of why DHC came: "He came to seek and to save that which was lost."

The account of the trip to Bethlehem, Jesus being born in the stable was given. Romans 10:9-10 was read. The Christmas carols tell of God's love and salvation. Jas. 4:14 was read.

Take the word Joy from the carol, "Joy to the World." J. stands for Jesus. O for others and Y for yourselves. It is a joy to put Jesus first in our lives, others second and self third or last.

A poem was read, "Your life is not your own." The Bible says: God is love and also "I will keep him in perfect peace whose mind is stayed on me."

Mrs. Forbes read a poem, "God's Gifts. Gladys Demille sang, "The Beautiful Hills of Judea."

Mrs. Gates read a poem, "Mike's Prayer." Gladys Demille closed with prayer and gave thanks for the refreshments. A social time was enjoyed.

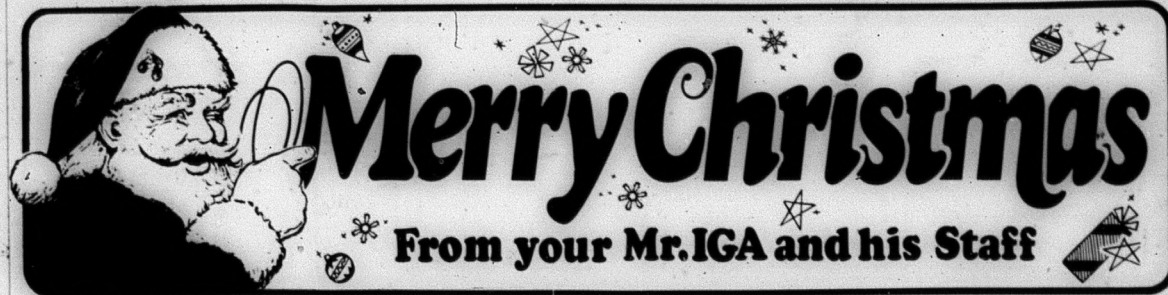

To all amigos and amigas, we render heartfelt appreciation this season for the loyal patronage shown to us.
